Thread: [Private VPN | Location: France | 5 Spots](#)

Six-Nine - May 7, 2014, 11:46 am

I will give out 5 spots to a private VPN.

The location is France.

I will not open any ports due to security.

The reason I will only give out 5 spots is because I want the speed to be fast and the VPN to be secure.

No logs are saved and the connection is encrypted.

Send me a private message to get this!
