Thread: [Posts needed, Win upgraded members on my forum](#)

System[X] - May 7, 2014, 11:52 am

Ok, so i have a nice forum just starting out and need your help. Just like any other forum starting out we need posters and active users.

I will keep this thread short, basically you post and get free upgraded membership to the forum.

The forum is build around the MarketPlace, there is no hacking section and no scammers tolerated on the forum.

Its a great place to hangout, meet new users and sell/buy/trade.

20 posts = L33t

50 posts = Ub3r

Also get a unique award next to your username :)

All posts must be HQ and not spammy.

This is ongoing until i remove this thread.

Click my sig to register.

Thanks

Just a suggestion, that is annoying a fuck when clicking across the tabs as it loads a new page rather than load all the tabs then allow you to freely go through them all.

Yeah, that has been fixed now :D

Thanks
