When you say we earn "x" amount / hour, you mean that we are earning this by every hour we work into the method or once you spend 1-5 hours setting everything up right you earn this every single hour?

I'd like to know this and please be honest. I don't mind having to invest a lot of time into this (neither the initial investment that you said we need) to start profiting.

Also, is this Whitehat, Greyhat (immoral) or Blackhat?

Greyhat.

After setup (30mins) you will start earnings \$15-\$25 per hour of work you do.

You will earn, say \$20 in the first hour of work, you will earn the same every hour after that, of actual work you do.
