Thread: [Rate my Photo Manipulation!](#)

Originality - May 9, 2014, 9:11 am

I created a speed art for it, you can just skip to the end if you wish. I greatly appreciate any feedback, negative or positive, that you can give! Thanks!

?

Rathz - May 9, 2014, 9:58 am

I was kind of sad to see the end result, I think the path alone was amazing.
PM me if you are interested in joining a Graphic Design team.

jayj - May 9, 2014, 8:44 pm

I think it came out pretty sick, I was into the video especially the song choice nice job man.

kingliveforever - May 9, 2014, 9:12 pm

You sir are a master manipulator.
Really nicely done. I expecially love the pattern.
And how u created the pattern. The creativity is amazing.

It was just a little over the top, I think it looked really really good just with the path and a small explosion. Just an opinion I'm sure other people will like it as it is!

VirusTotal - May 10, 2014, 8:11 am

Dude this is awesome! Congratulations for your work!!!

Driz. - May 10, 2014, 8:15 am

I really enjoyed watching this speedart, great job.

Okay, I understand what you mean now. Thanks for the feedback!

Con - May 10, 2014, 8:44 am

I've been interested in photo manipulation for a while, messed about with it a few times and I really enjoy it.

I really like what you did, man. Looks really epic, hopefully I'll be able to do that kinda stuff soon. :P

Originality - May 10, 2014, 9:17 am

Thanks to everyone who has good things about my piece! I do appreciate you taking the time to check it out.

@Nova, if you ever need ideas/help just ask me. There are unlimited possibilities to the brilliance of Photoshop that you can easily harness in your repertoire.

erikzzon13 - May 10, 2014, 12:15 pm

wow I enjoyed this speedart, great job :)

NegativeRep - May 10, 2014, 12:21 pm

Seriously if you added in some half-life 2 references you could probably run this off as a leaked image of half-life 3 xD

It's great!

Remix™ - May 10, 2014, 12:23 pm

This looks freakin amazing man. Nice job!

Originality - May 10, 2014, 12:41 pm

Haha, that is so true! Thanks for checking it out!

x34c - May 10, 2014, 1:50 pm

The pattern creation was awesome.. everything was great and then that explosion at the end.. kinda made me think wtf.. lol, too much going on..

aerodynamic - May 10, 2014, 1:59 pm

I'm no graphic master it whatever the hell people call them, but I honestly think you threw too much things in at the end.

Overall I really like the piece. Nicely done OP

'Chapter - May 10, 2014, 2:09 pm

Thats insane I liked blue color at first though. You should've kept it like that but I like that I'll sub to you because that was entertaining.

Originality - May 10, 2014, 7:26 pm

Thanks guys, I see what you all mean by a little too much in the end. Next time I'll try to keep it more simple!

Shoppa - May 10, 2014, 7:29 pm

Looks good, you should've used other symbols though ;p

Indecisive. - May 10, 2014, 7:30 pm

You should teach me photo manip lol, i've been wanting to learn for forever

Originality - May 10, 2014, 7:32 pm

If you ever need help/tips, feel free to send me a pm and I can help you on skype and such!

ImGlyphix - May 13, 2014, 3:57 am

Loved it. 10/10. I was worried until the end bit when you added the orange tinge to it. The end result looks amazing.

AmazinBlazin - May 21, 2014, 1:36 pm

That's really amazing, you're really talented at both GFX and VFX. Keep up the good work!

Twelfth - May 21, 2014, 2:10 pm

Not bad! Nice video of speed art.
keep up the good work!

Strayta - May 21, 2014, 2:10 pm

I reckon u did a pretty sick job. Keep it up

Mr.Pu?ple - May 21, 2014, 2:16 pm

awesome good work, really liked it and the music! :) keep the good work up!

Fredriks - May 21, 2014, 3:00 pm

I'm not really that much into neither of the sci-fi theme, nor the end result.

Apart from that, it's obvious that you got a bunch of talent, so keep doing what you're doing! :)

V?rt - May 21, 2014, 3:54 pm

I think that it looked AMAZING. I mean, I think you could have kept out the orange, just kept it the cyan color, and I also think that it would have looked better if you would have kept the stars and galaxy theme out of it and kept it just a simple Tron look to it.

Originality - May 22, 2014, 10:14 am

Thanks guys! Just as an explanation for the ending, the purpose was to create a portal like ancient technology that would reproduce ancient spirits from the past. It's just a sort of advanced technology that I got inspiration from Assassin's Creed and other media while having a brainstorm. I felt the

orange represented it better than the blue color corrections I composed.

I really appreciate all of you feedback, thank you so much for check it out!
