Posture: While taking a selfie you want to hold your phone at an angle above with arms extended wide and standing tall.

Be You: Be the guy or girl everyone knows you as, People know me as a very outgoing individual so most of my selfies come out looking like this: Spoiler ([Click to View](#))

Vouch my selfie's are so much better now. You should turn this into in eBook and make bare cash.

This site is slowly getting worse. Why do we need this? When I read the title of this thread, I think of that shitty song on the radio. Good job on spending time on this guide, though.

It's just a little joke for the Forum giveaway mate!

You mean the Omnicoin giveaway? They're not giving away a forum, they're giving away crypto currency to members who create the "highest of quality tutorials", so it's technically not a "forum giveaway". Just some grammar corrections to throw in there, as a "little joke".

It's still retarded. Still, I'm glad you actually took the time to make it. ?
