Awesome prices or HQ work!

Friendly user too :)

~HF~ - May 16, 2014, 1:48 pm

No offence but your thread design should show off how good you are at GFX, and \$15 for a thread design at that standard is a rip off.

Sorry if I should rude :(

Good luck.

Chill™ - May 16, 2014, 1:49 pm

I'm not really interested in getting GFX at the moment, but this looks like HQ GFX.

Hey man, you asked for an honest opinion so I'll give you one. I'm not really into GFX at all and it seems like you're creative and could do some great work; however, I think you should slow down a bit. There's grammatical/capitalization errors in some of the text, and on the blue/white thread design one of the panels doesn't match up. The design is very clean and I like it, but rushing through the layout takes away a lot.

Overall, good work. Just make sure you perfect something before you deem it finished, no matter what it is you're doing in life.?

You didn't know you can be succesful and professional in life while being a stoner?

Maybe Steve Jobs, Johnny Depp, Jennifer Aniston, Brad Pitt, Bill Gates, Barrack Obama and Oprah Winfrey proof this?

Nothing to do with me what you do in your spare time but basing a 'professional' design service around it is sort of pathetic.

Be careful.

Sorry for this, I'm just really busy lately and can't just start working on very big projects without receiving a payment upfront. I'm looking for people that want to hire me because of my portfolio and are confident with my Style.

I'm not trying to scam over a 15\$ thread design ofcourse and always do the work & finish the deal in the time we discuss.

I know your well known on this forum and I should go first etc. but with a lot of orders all the time I don't really feel like doing this. I'm very sorry.

When I got more spare time I'll be able to do it first but when I'm low on working time and in need of money I can't go upfront and have a risk of not receiving anything for some precious hours put into it.

Also, I don't think a middleman would be of use. Or I'm going first (with enough spare time to spend) or the buyer goes first. It's not like I don't want to use a middleman because I don't trust you.. I do trust you and that's exactly why I don't want to use a middleman because it's not necessary.

Scorn's Review

Just yesterday, I hired Amnesia-Kush to do a series of GFX for me, for my Twitter, Facebook, HF, Forums, and more. I ordered a Static Avatar, a Signature, and a Banner, and I have decided to review his service.

Affordability

4/5

I found Amnesia-Kush's prices to be quite acceptable \$40 for 6 files (3 pngs and 3 psds). This

hasn't set me back far and I feel that for the quality of the service he provides, this is a more than reasonable price. He was quite honest with me aswell when I forgot if I had paid him. The only downside is that you must pay in advance in full, with no refund if you decide that you do not like what he makes. But this is a small price to pay in my opinion.

Quality

5/5

I was won over quickly by Amnesia-Kush's WIP screenshots of my Avatar, and stunned by the allure of the banner he made for me. While they are simple and made of solid colors, these colors work lovely together, and the cartoon affect he applied to the pictures I gave him were exceptional. I can't find a fault in his work.

Speed

5/5

I am a patient person, and I told this to Amnesia-Kush. I think he ignored me completely when I said that, because less than 8 hours after I had provided him with the torso shot of myself for my avatar, he had made the avatar. 24 hours after I had paid him, I had my banner. He hasn't finished my signature yet, but given the pattern currently forming, I reckon it will be done in no time.

Communication

4.9/5

Amnesia-Kush is a great person. He understood what I wanted when even I didn't know what I wanted, he was friendly, and kept me in the loop. Before sending me files, he would show me a screenshot to see if I approved of the work so far, and listened to my feedback. I can't fault Amnesia-Kush here in anyway except that his skype status is always either offline or away, makes it confusing to know if he is actually there or not. But that's me nitpicking.

Compatibility

5/5

Amnesia-Kush supplied me with the PSDs to the images, as well as pngs. I haven't opened the PSD's yet as I do not have photoshop installed, but the fact that he has supplied me with what I need to make my purchased GFX suit whichever social media site I choose is just splendid.

Overall

4.78/5

Amnesia-Kush is an exceptional GFX artist. A fast, good, and affordable service is what I asked for, and was also what Amnesia-Kush provided me. We did all our dealings via Skype, and his end product was equally as good as the service. I have plans to call upon his work again in the future if he feels up for a slightly different job... but that's some time away. I recommend that you use his service if you want nice, clean, professional looking graphics.

Hello,

I recently bought a banner from Amnesia Kush, and it was great. Even with me explaining what I want it to look like pretty badly, he turned my thoughts into graphics. I really was surprised he knew what I was talking about, I've tried to get GFX from other artists, and it almost NEVER turns out the way I was thinking in my head, but not with AK. They were high quality, quick, and VERY cheap for the quality you get. You can get the same quality from other members, for 3x what he was charging. He's very respectful, professional, and extremely easy to deal with. His response time is great, he responded instantly after I tell or ask him things, unlike many members that take hours or even days to respond to a message. Amnesia Kush definitely runs a great graphics shop here, and I definitely recommend anyone that's looking for a nice banner, logo, thread design, or whatever to buy from this guy. Top quality and professionalism is what you get from this guy. Overall, I'd say he gets a 10/10. There were no issues, complications, or anything impeding the process. There aren't too many users like this on HF, so you really have to appreciate the way he treats you and really puts all his effort into his work.

Huge vouch for Amnesia Kush I bought a logo design from him and I couldn't be any happier. I know it'll get me a lot of business and it totally worth the price. He was willing to work with me and help me figure out what I wanted when I wasn't exactly sure what I wanted to get. He redid it for me whenever I asked and was great to work with. I will definitely be doing business with him again.

He finished my work, and im so happy right now. The full package i ordered here from my buddy is looking GOOOD. Damn, this must be one of the best thread designers on HF.

**Another One** - December 2, 2014, 3:47 pm

Amnesia Kush and I spoke about some graphic work a few days ago.

I bought an animated signature, an animated thread, and a " custom logo. "

\$70.00 was the total. At first, I thought it was way too high. I figured, the price that high this should be some high quality stuff.

So, I paid the \$70.00.

About 24 hours passes and messages me on skype, and shows me this:

<https://gyazo.com/27634a3beac98f97f9d42a99b96e2fa4>

It doesn't look great, but doesn't look bad. But, the whole point for the logo I purchased was like a seal for everything I do, not just the premium shop. I explained him the issue and flips shit on skype telling me I didn't tell him that and how bad of a customer I was.

Then, he shows me this thread design.

Disregarding the animation: [This is the thread he made.](#)

[This is the old thread design I bought for \\$10.](#)

The only thing that I was pleased about was the signature.

This whole experience he was rude, unprofessional, and ignorant. I would not recommend spending high amounts of money on cheap designs like these.

On-top of all of this.. I told him that I was going to write an honest review on his graphic thread and this was his [response](#).

This is not a sales trash or flame, this is my honest review.

Take it for what it is.

This guy is depressed because his personal Spotify method stopped working,  
Gave me details for a Graphics job, Paid me for it. I started working once I got it done send it to him  
(Note: I worked a full day for everything since he only gave me 24hours) Once it was done he said  
he wanted something totally different and gave me total different details, after that I told him I  
couldn't do that and he started complaining about everything, while he didn't even know what he  
wanted changed and how he would like it at all. Weirdest customer I've got.

Now he's all depressed and shit ???

I needed someone for graphics and then I saw his thread and as I read this text something in me clicked and I instantaneously decided to order graphics from Amnesia.

And as I did that I knew I made the right decision when shortly after he had already sent me extremely HQ images of the thread design better than how I had envisioned it.

You can't hire me for a "lifetime" that would be a weird deal man, You can "buy me as slave" and than open your own shop and sell graphics made by me with this theory.

If you want to buy loads of designs I can give you a nice price for it, but you can't buy me.

Quality: 10/10

Quality was awesome way better than expected.

Speed: 8/10

I wasn't in any rush tbh but I did have a large order he said 2 days he got it in 3 and which I didn't mind still pretty fast for what I ordered.

Price: 8/10

It was a bit over priced but decent I would of liked to spend less but you get what you pay for.

Customer Service: 11/10

Friendly gfx designer I met in a while.

When you order graphics from Amnesia, you know you're getting the best of the best. From High quality graphics, to fast delivery and friendly customer service, Amnesia is by far the best graphics designer on Hackforums. Prices are also extremely reasonable, and he makes sure by the end of the task that you are happy with his work.

I normally don't recommend anyone however Amnesia is a clear exception - his work is BRILLIANT

I have worked with Amnesia for the past 3 months on a massive project.

He does take his time to do the work but in the time he spends he creates truly incredible pieces of graphical art. All of his work so far has been clean cut and modern and exactly what we were looking for.

We also plan to come to him for any other further work on the project.

Thanks again :)

I had the pleasure of working with Kush over the last couple of weeks and I must say he is very good at what he does. I like to leave my work to someone who knows the ins and outs and he did just that, I gave him a couple of bullet points and a logo and long behold, He came back with a vibrant thread design.

I would recommend anyone to try his service if its anything related to do with GFX. He is a pleasure to work with and a laid back person to get a long with. He also knows more than GFX but I'll let him announce his projects himself ?

I also paid upfront and he provided me with all the files for the project.

Solid commendation here

This is a HUGE genuine vouch for Amnesia Kush.

His work is nothing but the best, and doesn't come with an expensive price tag like most "quality" designers. He has worked with me over the past 3 years, and has consistently created innovative & creative designs whilst following a strict timeline/timeframe. What's best is that his prices are extremely competitive. Nowhere in my years of design have i seen a person who is friendly, innovative & creative, and delivers work within 2-3 business days whilst being extremely cheap.

I will honestly be closely working with Amnesia over the coming years, and could not THANK him enough for his amazing and creative work. Don't waste your time, if you have an idea, or simply want to revamp your website or create some content, look no further. Amnesia Kush is your man.

Once again i really appreciate your amazing work bro.

HUGE Vouch for Amnesia - I don't give vouches on HF but his services, competitive prices, and creativity just needs to be more recognised, so i just wanted to share some words working with him over the past two years.

He has done at least 50-100 designs for me, from website sketches, mobile UI, banners and marketing content for my company. I have used 10-15 designers previously, and none compare to Amnesia. When you order graphics with Amnesia Kush, you're not just getting graphics. You are getting constant support, ideas and recommendations to making a successful design, friendly customer service, not to mention being one of the cheapest designers on the market.

If you need ANY graphics works , look no further. Amnesia is your man. This is a personal vouch - his services is nothing but the best.

Vouch for Crypto, Needed a logo and he delivered on time and to my expectations.  
Was open to try a few styles to my liking.  
Don't hesitate to get any work done from him.

**Flipspot** - March 30, 2019, 8:42 am

As always.

A huge well-deserved vouch to Rising Studio (Crypto). Just when i think his work couldn't get better, being a full-time client in the past 12 months, he surprises me again and again with quality, creative, and affordable work.

Put it this way, you will not find someone that actually cares for your work & project like Crypto. He genuinely wants to create the best work from your ideas, and will make these into reality within a few days at the max!

I could honestly talk pages about him, but to put it short, he's genuine, creates high quality work, creative and unique with his own twist, and is probably the most affordable designer ONLINE, not just on hackforums.

My personal vouch - You are amazing man, keep it up, you really do deserve all the recognition you can get.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,  
Stanley
