[DON'T POST IF YOU CAN GET THIS HERE IF YOU DON'T HAVE 25 POSTS OR MORE, YOU HAVE TO PM ME!](#)

[\[img\]http://s21.postimg.org/fz83nwxo7/da\\_Post.png\[/img\]](#)

Virus scan:

<https://www.virustotal.com/nl/file/f97b6232009159f8e7f87b27300a16ce9765dc9ebb144991af99259e50bd68ea/analysis/1400264543/>

I know it's 6 / 53,  
and i don't know why.  
Anybody knows what Gen:Variant.Barys.875 is?

It probably is something with the obfuscator, because this is the scan of the non-obfuscated file:

<https://www.virustotal.com/nl/file/bb1929c5dbe93af438c952a28e4d3c5795a7f1b2ef3394778b11d8aba3d2dd19/analysis/1400266663/>

Anyways, it's no virus, i'm not trying to infect any of you.  
If you don't trust me, just run it sandboxed/in a Virtual Machine.

PM ME TO GET IT :D

because it's just 100% clean code that's obfuscated.

Don't take this personally but i don't believe that anyone would release a program that gives out skype logins without running a silent download or anything like that. But what do i know, i am both new too this forum and the hacking culture.

I love eet! Got myself a lot of Skype logins and this tool works shamazing. Don't hesitate to download it!

**graymark3** - May 26, 2014, 12:36 pm

generates random skype accounts

it doesn't create them on the spot, i think it just pulls random from a list of dumps or something.  
relatively useless unless you spend a good 3 hours and get lucky enough to run into an account with skype credit/premium.  
kind of useless but it does what it says...

**kfhmad** - May 26, 2014, 1:32 pm

**?asp3r** - May 26, 2014, 7:36 pm

works yes, but if you look up the logins given, they are from leaked dumps most likely from russian botnets.

Most of the accounts are locked down for "security reasons".

Startin' my road for the right post count...

Not really sure about wanting to test this thing, but still curious.

Cant be anything else than a list reader with some random account stolen.

Only the method to get the list would be pertinent.

Btw :

Ready to pay for a real stuff workin' on specific account (Choose username hell yh).

Indeed at first i thought that i should open skype and he'll crack my users, but i find out that there's some users who have just created an account and some of theme aren't working at all!! anyways i'm with you if there's something real to crack a specific skype i would buy that for sure!
