Thread: [CINEMA 4D - Created a pokeball / First work](#)

Cyber00001 - May 16, 2014, 3:22 pm

Hello guys,

Since yesterday I downloaded cinema 4d on my pc. I watched only once a tutorial of creating a pokeball. After watching once I have been started to make my own. I was stucked sometimes but just figured everything out by my self without watching it again.

This is the result. And I must say that I am pretty proud of this ! My first work on cinema 4d!:) I think it's pretty high quality isn't it ?

No problem mate, and thank you very much :D

Auxil - May 16, 2014, 4:50 pm

Not bad. I made something similar to this as my first work in C4D. I never watched a tutorial though. I hate tutorials. Awful to follow.

This was my first work:

Looks pretty good, I also like yours Adobe. I wish I could get C4D.

Ash Ketchum - May 16, 2014, 11:37 pm

i Ash Ketchum the Poke'MON master approve of this picture.

Montane - May 17, 2014, 12:56 am

Wow i like this. I think i need cinema c4 in my life, there are some awesome outcomes.

This isn't your work. This is a template/lightroom from YouTube.

EDIT: I use Cinema4D alot, and I know this isn't your work.

He just gave me -3 rep lol... he thinks I post someone elses work rofl?!

-YB- - May 17, 2014, 3:19 pm

Looks nice all the shadow circles make it look weird somehow idk.

reama - May 17, 2014, 3:21 pm

It's a template. You just added the colors etc. I mean, at least post a screenshot of Cinema4D. I don't hold anything against you.

Cyber00001 - May 17, 2014, 3:24 pm

Buddy, It's not a template lol I didn't download a template and added colors. I made it all from nothing... I don't going to beg you to believe me I don't care so it's up to you. You can think however you want mate.

I will post now screenshot...

Edit:

SCREENSHOT of cinema4d : Spoiler [\(Click to View\)](#)
