Big vouch :D

Enronitis - May 16, 2014, 6:44 pm

Looks good

May want to get design fixed though, it's "Medieval Twitch"

Not "Mediavel"

And it's "referrals" not refferals or, referals.

Forward™ - May 16, 2014, 8:39 pm

Thanks for informing me about this, I will get the person to change that.

Open for sales still!

msazndragon - May 17, 2014, 4:18 pm

Buying 100 + 100 is cheaper than buying 200 o.o

Forward™ - May 17, 2014, 4:22 pm

Well, I have chosen 'bitcube' as the vouch receiver. Keep in mind I have an order in front of you, but it should not take long for the refs to be completed.

The whole thread design is messed up, soz lool.

I need someone to make a new one.

Bitcube, your order will be done in approximately 2 days and 23 hours.

S?dap?p - May 18, 2014, 11:09 am

Was gonna wish you luck but im seeing issues with ur service from the past. Have u fixed ur VM problem? Are you leveling up the accounts on your computer or do u have a partner that is doing

this with you?

Forward™ - May 18, 2014, 11:31 am

I currently have a team of dedicated people to help me run these. I am myself, running 5vms, other people are running some as well. I have a tracker coming out very soon, it isn't public but I can still tell you an eta. We are leveling these accounts not on a vps, on our computer, we have a vps running with different ips as well, even though LoL isn't banning users for purchasing LoL refs.

If anyone has anymore questions feel free to post in here or pm me.

'BlackBone - May 19, 2014, 6:26 am

Any Available Vouch Copies? You seems to have a low reputation.

Forward™ - May 19, 2014, 1:04 pm

Bitcube's refs have been done for the vouch copy. When he gets back on, he will verify this. Or we will have to wait until LoL updates it.

Ventures - May 19, 2014, 1:28 pm

SubGenius - June 1, 2014, 2:10 pm

Oh my god, what have you done to the thread design. The previous one was better >.>

Anyway, good sales mate. HQ user.

Forward™ - June 1, 2014, 3:57 pm

I know :(

I had to change the prices because they were messed up my self, the background wouldn't stay transparent and it changed to white.

I don't remember who made the thread design, I believe it was something similar to Sub Genius, but I can't remember.

Spoiler [\(Click to View\)](#) and that u own him 25 refferals.

Rick R?ss - June 2, 2014, 11:37 am

I'm really interested in the 100 referral package but I'm kind of scared off by your reputation and scam report. I'm going to add you on Skype and try to make a deal.

Forward™ - June 2, 2014, 11:46 am

Mr. Drezz is 10-11 years old and got mad at me because I had more money than him. So he neg repped me, and called me a scammer, yet he never purchased from me, and then after that, somebody tried scamming me, accusing me of scamming, yet he even showed proof that I did some of his refs.

But sure, add me on skype: furytrick

Rick R?ss - June 2, 2014, 3:34 pm

What's the queue for the ref right now?

Forward™ - June 5, 2014, 8:04 pm

100 refs usually takes less then a week.

?ouse - June 5, 2014, 11:20 pm

Posting here to come back later, on my phone right now :D Looks really good! But a quick question, is it guaranteed that the referrals atleast get to level 10?

Tokyo - June 6, 2014, 9:14 pm

Vouch for this user right here. Received my referrals in under a week. All refs were all level 10 no exceptions. Recommend this user for HQ referrals.

Purchased 50 referrals today, will come back to this post when I receive them!

Thanks in advanced!

Forward™ - June 8, 2014, 2:48 pm

Thanks for purchasing, your refs shall be done shortly, will contact you when they are completed.

frostysandman - June 10, 2014, 1:57 pm

Just purchased 100 referrals for 40 USD which is a WAY better price than most if not all other referral services, also Forward's referral service offers it in USD, most other referral services only provide it with the payment of euros and the conversion rate of euros makes it end up even more expensive. Forward also agreed to speak to me on skype, to discuss any further questions I had about the service.

In the end, Forwards referral service is, cheaper, more reliable, and honest.

Forward™ - June 10, 2014, 8:17 pm

Thanks frosty.

For a short time orders will be done in a couple of days.

Open for sales! Any questions post in here.
