Thread: [To Love Ru Review](#)

KingOfSleeping - May 17, 2014, 8:02 pm

So I have to admit it took me a while to finish it because of tablet problems but I managed to finish it and lets jump into the review.

The Sound:The sound was pretty decent along with the songs, it just felt like all the other Ecchi anime voice and similar songs would rate the sound on To Love Ru 6.5/10

The Art Work:I cant say anything special for it the quality of the art work wasnt that great but it was pretty good,So I rate this 6/10

The Story:A teenager named Rito in high school loves this girl named Haruna but can never confess his love.Then when he was taking a bath a naked girl named Lala from planet Deviluke shes the princess appeared in front of him using one of her devices she made, anyway 2 men appeared wanting to take her back but Rito had no idea that she ran away from her planet and well Lala says Rito is marring her because apparently in the bath tub Rito grabbed her breast on accident and that's how you propose on there planet anyway Rito loves Haruna but would be killed along with Earth if he did not marry Lala because they took it as a big offense and had to try to fight off everybody that wanted to marry her instead..Anyway Lala knows that Rito dosent love her and tries to reset everbodys memory at the end but her machine failed as most of them do.Anyway this is what happens Rito gets closer to Haruna at the end of the story and dates her they never said it but you could tell at the end of the story because of what they said and how they acted. My rating for the story is 8.5/10 for a Ecchi its considered a Harem,romantic comedy and science fiction but its a lot easier saying its a Ecchi anime.

Anyway got on my PC to post this usually just stick with tablet but not for reviews anyway this is my first review if you could tell me if im missing anything or something to do with my reviews just tell me.Also im gonna start To Love Ru:Darkness soon For now good bye ?

To Love Ru is a borderline hentai Anime, in all-honesty I'd rather just watch hentai.

The character development was almost non-existent and everytime the MC was about to get together with one girl they just "suddenly" distance from each other immediately.

Random moments as to where he ends up with a bunch of girls falling in love with him. The japanese industry is blooming and they're making a lot of \$\$ from pure fanservice.

They tried to develop a story/plot once and it was going pretty well until they decided to dump it into a dumpster and start with the Fanservice arc again.

I don't like animes where the MC doesn't seem to even appreciate what he's got.. I mean he literally has a bunch of beautiful girls around him and he seemingly doesn't really appreciate any of them that much.

Panty shots flashing, random moments where the girls butt falls on the MCs face and they get in an awkward situation.. All for fanservice and plot! Absolutely no development, story or anything at that

point in this Anime. And even if there is a little story/plot it is almost non-existent compared to the humongous amount of Fanservice.

I watched some of this anime quite a while ago and thought it was pretty bland to be honest.

Well ye they did kinda mess up that he never got in a relationship and never had feelings for Lala but had feelings for Haruna its kinda like what are you doing date the girl you like but I think it was stupid he couldn't break it up with Lala and she had to do it at the end, and thanks ill keep that in mind Tedeschi for my next review so thanks ?
