I was one of the lucky guys who got a vouch copy and this shall be my first review.

This is an honest review, OP neither asked me to leave a positive feedback nor did he try to buy a good review.

Quality: 9/10

This ebook has a MASSIVE amount of pages (over 100, i needed over an hour reading and understanding it), it gives you an introduction to the seller and overall an IDEA of how to make serious amounts of money.

Originality: 7/10

I have heard about some of the pieces this method contains of (its only one) BUT all together this method is 100% unique.

Ease of use: 6/10

I will be honest , this is not easy. It will take some time but it is managable and the ebook you buy

comes with videos, so it will get easier. Also the seller seems like a nice guy so i guess he will support you with whatever Problem you may run into. However the method does NOT need any knowledge right of the bat. You will be guided trough the sellers train of thought and in the end you will have to make the content of this Ebook yours.

Layout: 7/10

Its a pretty basic layout. Im sure the copy you buy will look better but mine didnt look really fancy. In the end it doesnt have to either - you dont a buy an ebook for its layout after all, right?

Grammar: 7/10

There were quite a few grammar and spelling mistakes, but it is understandable. This ebook is the most detailed i have ever seen (over 100 pages) so i didnt bother too much searching for each and every mistake. You will surely encounter some but it doesnt really harm the all in all Picture this ebook gave me.

Overall: 9/10

This is a high quality ebook. I used to think that most ebooks on HF are scam and plain bullshit but this proved me wrong and gave me some hope to this place. You wont be making 5000\$/day when you just start off and maybe you never will make those amounts BUT it is up to you. If you work hard and invest time there are no limits (in theory). Well, i can only encourage you to buy this - i cant speak of each and every ebook solded at this place atm but this has to be one of the best amongst them. Good luck earning.

Bimay - May 18, 2014, 5:22 pm

Seems sketchy that the amount you have is EXACTLY \$19,000. I laughed when I saw that. GLWS though.

To all those doubting my earnings I have \$19 000 exactly because I sent \$1 to Codah (<https://hackforums.net/member.php?action=profile&uid=125487>) He will verify this.
