Tremo - May 18, 2014, 7:24 am

So, I was reading a tutorial earlier and came across this. Just thought I'd make it for you all. I'm making it L33t/Ub3r due to the sole fact that I do not want this thread to be spammed and I'm ultra busy at times. HQ Regulars can feel free to request for them.

The background was really hard to work with, it won't be HD after it is resized. I'd suggest you to pick up another background.

Without a background, the text would be really choppy and dull. You need to have a background ;(
