Hey,

I just came up with an idea for something and I'd need something made for this.

So basically, I need a dice lying like this:

Spoiler [\(Click to View\)](#)[img=500x500]http://www.giffits.de/pics/c320/5668_1.jpg[/img]

So there are always 3 sides visible.

The dice itself should be white.

Now, I need Minecraft Animals/Mobs on this dice.

Preferably [a creeper](#), [a spider](#), [a wither skeleton](#), [a chicken](#), [a pig](#) and [a zombie](#).

I linked to the Minecraft-Wiki pages as they contain images of these mobs.

I'd need a picture for each of the mobs being rolled.

It'd be greatly appreciated, thanks in advance! If you have questions, feel free to ask them or PM me.

Here you go.

Is this what your looking for?

Spoiler [\(Click to View\)](#)

(The other angles are done too just lmk if you want them)

???Senpai - May 18, 2014, 12:25 pm

If I only knew how to operate C4D :/

Best regards,

Senpai :Blackhat:

They look good, would it be possible to make the background transparent?

If so, yes, the other angles would be nice.

Thanks!

Sure, give me a few minutes to do this ?

hope these are what you want

They look good! Thanks!

One last question - would it be possible to let them all have the same slant? It'd be perfect then ?

The ones you made now look very good already, but as I'm going to use them for a website, it'd be better if they look... 'similar' but with other pictures, like having the same slant, if you know what I mean :P
