[UPDATED] How to Remove Your Last Name on Facebook
? Working as of May 2014

Requirements

- Brain
- Mozilla Firefox (Any Version)
- Indonesian Proxy (Hide My Ass Proxy)
- Patience
- Facebook Account

Step One :

Open Firefox & Go to HideMyAss.com and Scroll Down

Step Two :

Uncheck All Countries , Choose Indonesia & Click Update Results

Step Three :

Choose Any Fast IP/Proxy Address and Port

Step Four :

Open New Tab and Click Firefox > Options > Options

Step Five :

Advanced > Network > Settings

Step Six :

Manual Proxy Configuration > HTTP Proxy > Port > ? Use this Proxy Server for all Protocols

Step Seven :

Login Your Facebook Account > Account Settings

Step Eight :

Change Language to "Bahasa Indonesia" and Click Save

Step Nine :

Click "Sunting"

Last and Final Step :

Erase Your Last Name "Belakang" > Enter Your Password "Kata Sandi" > Hit "Simpan Perubahan" and Wait...

Enjoy Tricking Facebook!

Yes sir!

Actually you can find here my first thread about removing your last name in FB. If i'm not mistaken i'm also the first who post this trick.

Thank you for the Share will try it later :)

Effexion - May 19, 2014, 3:22 am

Did this a while ago, it's all cool but my name shows up as Mikey Mikey on some things lol.

adelanote - May 23, 2014, 1:19 pm

Works perfectly !

Thanks for the share

flamerz - May 23, 2014, 1:30 pm

Thank you! Just tried it out, amazing tutorial. First I forgot ticking the box for all protocols, that left me wondering what I did wrong^^

SimonSeven - May 23, 2014, 1:39 pm

thanks for this tutorial! works nicely

Great tut! I used your first thread to remove my last name, and it worked perfectly. This tut is much more easier to follow instructions because it has pics! (Unlike your previous thread) ?

Nice share man, will probably help a lot of people.

Idk why Facebook made this trick for indonesia users only ?

Indonesians, generally, have much longer full names than the rest of the world.

shaaari - May 26, 2014, 3:25 am

Its working brother....thank you. Keep posting new tricks.

Neophytez - May 29, 2014, 12:46 pm

It works :) Don't forget about "? Use this Proxy Server for all Protocols " ;)

Hidden™ - May 29, 2014, 12:47 pm

This is still working, thank you for the share OP.

madmancade101 - May 29, 2014, 12:58 pm

Not sure if I will ever use this but. Thanks.

Sek1 - May 29, 2014, 1:29 pm

Thank You, it still works fine and easy. Great job

Evadeee - May 30, 2014, 4:10 am

Nice share, its working fine for me:)

Twitterr - May 31, 2014, 12:49 am

Enjoy guys!

Thanks also, share to your friends.

I just wrote a tutorial for a friend. I should've just looked on HF and copied and pasted yours haha.
Great tutorial Twitterr.

upwnurown - June 7, 2014, 4:41 pm

very detailed tutorial thanks for sharing :)

iKronos - June 8, 2014, 2:59 am

Thanks! Just worked for me, perfect. :)

Hopsin - June 8, 2014, 3:05 am

Thanks for sharing this. Have seen it many times but still thanks!

Kardo84 - June 8, 2014, 3:21 am

Insane how some people can do things

Talu - June 8, 2014, 7:57 am

Looks like an HQ tut, thanks for sharing.

xDefaultx - June 8, 2014, 9:23 am

Thanks for the tutorial but how long do I need to wait for?

Danpain - June 8, 2014, 2:39 pm

Not working for me, unfortunately =\\

xDefaultx - June 8, 2014, 3:58 pm

Me neither... It says that there's an error because my name is blank. (I think)

jambos - June 14, 2014, 1:28 pm

not working :(must enter last name

theBoyAnt - June 14, 2014, 1:33 pm

No longer working, does anyone know an alternate way? :(
