This doesn't require social engineering. Where did you get that from? Don't jump to conclusions.

This does require an investment though. The more you invest the more you get!

EDIT: Sale still going on!

No. This method is completely whitehat and does not involve cracked programs or anything of that nature.

Face Killa - May 19, 2014, 12:42 pm

I will take a vouch copy if you are still handing them out and write a review.

Wirt - May 19, 2014, 12:45 pm

I apologize for not announcing it in a response but all review/vouch copies have been given out.

Real_FFF - May 19, 2014, 6:48 pm

This is legit and really straightforward. Vouch OP!

Aeonian. - May 19, 2014, 10:08 pm

I can vouch that this is a fairly straightforward method. It does involve a decent amount of time, investment, and work, however with the proper application of each, you can have as much steam wallet cash and even Paypal cash as you can use.

Timo - May 19, 2014, 11:46 pm

Got a vouch copy, writing a review as soon as im home.

SIM-1939868 - May 20, 2014, 1:48 am

Is this method about buying steam games with discount and selling them on the market? Because that can get you banned..

Let us know!

No this does not involve that. You won't get banned for using this method either.

How long would it take me to get say \$5 dollars in my steam wallet? And how much would I have to invest to get that \$5?

Wirt - May 25, 2014, 8:31 am

To get five dollars you would probably invest somewhere between \$8-10, so in the end you will have \$15 in your Steam Wallet.

To get \$5 in your steam wallet you would invest like \$3 or so.
