Thread: [ThinkPad X1 Carbon vs XPS 13 Ultrabook](#)

Kankroc - May 19, 2014, 3:44 pm

I need a new computer for school and I found two computers that I think are interesting

Either the XPS 13:

CPU: i7-4500U (Up to 3.0GHz)

RAM: 8GB

Screen: 13" 1920 x 1080 touchscreen

SSD: 256GB

Price: 1699.99\$

Or

The X1 Carbon

CPU: i5-4200U Processor (3MB Cache, up to 2.60GHz)

RAM: 4GB

Screen: 14" 2560 x 1440

SSD: 128GB

Price: 1424.99\$

I find the XPS more interesting mainly because it has an i7, 8GB of RAM and a larger SSD
The X1 is interesting too because of its screen resolution.

Anyway, any opinion is appreciated, I'll need it in around 2 months so I can take the time :p

Honestly I'd just wait a month and a half before making a decision then. The prices could change a lot by then. I'm thinking the X1 could drop even lower.

Well it says I must count 3 weeks to a month before receiving it so I have 1 month to decide.

But yeah, I'm always checking for price drop.
