Thread: [Best Crypter Ever | Cube Crypter | Long ass FUD time](#)

**Backwoods Cigar** - May 19, 2014, 8:33 pm

This is my first feedback for "Cube Crypter".

GUI: Well designed, very sleek. Thanks to this [Member](#)

Features: I have been into Rat's since 2012, and I have been using multiple crypters in that time, and so far, Cube crypter has been the best. Longest FUD times, lasts at least a 1 1/2 Week(s)

.Binder

.Startup

.Persistence

.Hide File

.Spoof Ext.

.Process Prot.

.Custom Icon, Provides one automatically if needed.

.Inbuilt Scanner & More!

Thanks to the owner [4th Dimension](#) he updates the stub every single day, so even if it is 1/60, it will be updated.

Overall Rating: 10/10 because it is very Stable, and well coded, easy GUI, and Simple Crypter. Defiantly the best Bang for your Buck.

Thanks to:

4th Dimension: Coder

iSynthesis: Flat UI Theme

Aenonhack: Netseal, Run PE & More!

JeromeMarshall: Process Elevation Class

Thanks for providing HackForums a well coded, amazing Crypter.

Those kind of threads "Best Crypter Ever" stinks, I can smell it, sniff sniff...what that's? it's bad

advertising.
