HUGE vouch for Happeh here. He's put a BUNCH of effort into this & he's tried his best. Definitely hands down one of the best VPN's I've seen in a while.

Just got the confirmation email - thank you for purchasing. I hope you enjoy and if you have any problems, please go ahead and shoot me a PM or open a ticket. I'll try and get back to you as quick as possible!

Vince - June 11, 2014, 4:45 pm

I am confirmed, but can not seem to find the accompanied download for the vpn?

Have you checked your email? A download link / instructions should be sent to you on how to start.

A Custom Client Is Coming Soon.

Happeh - June 11, 2014, 5:00 pm

Over the past day or so we had a few servers down due to abuse complaints.

Everything should now be back to normal, but the Germany server is now down for good. The New York server has also changed IP address and a new config needs to be downloaded. You can do so through the link sent in the email.

Netherlands has now been added as a location too. :D

Thanks for everyone's patience.
