Thread: [\[Visual Basic 6\] Manic Crypter \[Visual Basic 6\]](#)

hxkd - May 16, 2010, 11:14 am

Hey people!

Today I am here to sell the private version of my Manic Crypter:

[IMG]http://i42.[censored].com/2wghbfs.jpg[/IMG]

Featues:

Scantime FUD

Runtime FUD

Coded in Visual Basic 6

EOF

Tested on all versions of iStealer

Free support crypting first file

Prices:

1 Stub = 5 Pound

PayPal as gift only. Minimum 24 hour wait *I dont care if you have slept with a moderator*.

Vouches:

Code UNiQQ

He is relly trusted i trade with him now and he make me VERSION OF THE CRYPTER THAT IS
RUNTIME his crypter working good runtime & scantime 100% fud
tnx for you!

Code ReLaX Online

VOUCH-- bought crypter with 5 stubs quick only took him about 2 minutes to activate.

Code djgringoboy2003

Nice little crypter... Simple, easy, fast, helpful transaction thanks ;)

Code djgringoboy2003

Nice little crypter... Simple, easy, fast, helpful transaction thanks ;)

Code S70N3R

Thanks I Vouch for this guy £2 well worth it

Code Jesus.

just bought this great crypter

HXKD is an incredibly courteous and well mannered seller
explained details of when to run the crypter (after he added hwid to his DB)
gui is very nice and clean
there is one bug, which HXKD explained and explained how to manage it. (nothing that stops or
hinders the use of the crypter)
works perfect on XV2.0.1 too :D

gui is nice, clean and simple, no over-the-top frills

and at £2 its almost a steal, grab it while you can!

Code Black Shadow™

DonatorDiamondCat LoverUb3r DonatorRich BitchDog Lover
Trusted seller ill vouch for him.

Code crawl7

vouch for him trading my ddos shell for his crypter

Code Young Money Online

just bought this excellent program hgot me 5 stubs to
Code tommy_cfc

Bought this, and i thought, hmm it's not runtime.. but he made me an AV killer and binded it :D its
FUD and it kills there av's and firewalls. Thanks alot man :)

Code tommy_cfc

Got a updated stub, loving this crypter so much!

Code dugixy1

i try this crypter and he is realy FOD. nice job. and HXKD s very friendly man.i will post some
rezults tonight.

Code barthwrc

vouch him

great seller

Code jonagold

his stuff is ok, he is a trusted seller

Code rebbe

I brought this crypter and it is working well! HXKD is a very good seller, and helped me use it.
+1 rep ;)

Does it support 64 bit? What encryption does it use?

ipixelatedx - May 16, 2010, 11:52 am

Man, I get kinder fed up with these public source mods, you should just release for free if its not fully stable on every WIN OS!

hxkd - May 16, 2010, 12:35 pm

Rofl LOL. For starts I use Windows XP, and dont have a VM atm so I cant test it on anyother computer.

Dont just asume things.

ipixelatedx - May 16, 2010, 1:02 pm

Im not assuming anything, By looking at the GUI .. Its an obvious Yes. Tell me which encryption Method, RunPE method, Or alternative you use.

hxkd - May 17, 2010, 1:15 pm

I will put my hand on my heart and say "I have no idea what runPE it uses because I got given the code by my master Oscar193."

As for encryption, it is RC4.

SpK - May 17, 2010, 1:24 pm

I think people should stop selling stuff. You don't even know what RunPE it uses, but still you are selling it. What will you do once this is detected? Go cry to your master Oscar193, and he will wip up a new one from the secret lair with RunPE's he hide inside his ass?

Hacking Since 1994 - May 18, 2010, 6:09 am

I think its alright.

I like the simplicity in the GUI.

But stubs are to expensive man.

Stubs Usually sell for \$2.

But good luck on sales man.
