Thread: [Font Site \(Very Nice Font's\)](#)

Gerion - May 24, 2014, 1:15 pm

I just found <http://www.losttype.com/browse/>

It has amazing font's that would look great in modern and simplistic designs.

It looks like you need to buy them at first, but you don't!

Just put "0" in the donation box and click download, or you can donate if you like them your choice!.

Happy Designing!

There are a lot of nice fonts there.

Thanks for site.

Lost Type is nice, but be careful not to overuse them since people notice. Too much Wisdom Script makes you look like a Red Robin menu.
