Thread: [Can't turn avast protection ON. Infected?](#)

joneh heil - May 26, 2014, 8:08 am

I noticed my Avast protections were off. I tried turning them on, but nothing happens. Am i infected?

Where did you try to turn the services On ?

Via avast! or Windows Action Center ?

ZuGgY - May 26, 2014, 8:27 am

Are you updated or need a reboot?

Did you try uninstalling and installing?

Are you able to start the services in Safe Mode ?

When you reboot, are they disabled by default ?

Rebooted my system just now. It's disabled, and i can't turn it on. ?

EDIT: Performing a quick scan using Malware Bytes

Never mind. I managed to fix it. Thanks anyways
