Thread: [FREE Thread Design \[Download Link Inside\]](#)

Griffin - May 26, 2014, 10:48 am

I posted this layout quite some time ago, but I felt it needed some more attention as it is actually quite a unique design.

You will be provided with the .PSD
Everything is in neat order, in separate labeled folders for easy navigation.
Once you receive the .PSD, this is your thread, and you can do whatever you want with it.

Enjoy, post in thread to keep active.
