All of the methods range. It also varies on how often you use them.

Robbin in the Hood - May 16, 2010, 5:56 pm

darkteivel is a good friend.

Vouch.

micdog - May 16, 2010, 6:07 pm

Vouch for dark, known him for a while and viewed the ebook through teamviewer. Not bad.

DancingCobra™ - May 16, 2010, 7:54 pm

Can we see some PayPal screenshots please?

I would like to see how much you've earned

darkteivel - May 16, 2010, 7:55 pm

Havent used methods recently, my paypal is also at -5.00 USD

darkteivel - May 16, 2010, 9:05 pm

Bump..

Now having a sell, buy one copy, and I will give one to your friend for free!

Review (Ratings on a scale of 1-5)

=====

Quality of Information: 5/5

Ease of Use: 4/5

Layout: 5/5

Grammar: 4/5

Originality: 4/5

Notes: There are 7 methods in this book, 4 of which are public, but 3 that I've never heard of before. By theory, they should work.

darkteivel - May 17, 2010, 4:09 pm

Bump.

any buyers out there??

SexyFate - May 18, 2010, 6:23 am

MSN: SexyFate@Live.com Id like to buy the 3 that Valiant never heard of ;)

Review (Ratings on a scale of 1-5)

=====

Quality of Information: 5/5

Ease of Use: ranges from 3/5 to 5/5

Layout: 5/5

Grammar: 4/5

Originality:4/5

Notes: Note you should know some of these methods are to be used in person. Aka not online while some are online. There are a few methods that are publicly know and some not. Some of the methods are also blackhat which if you have morals may be against you. Also some things in this ebook are limited to specific people who have access to specific things. (Kind of broad but can't go into detail)

Review (Ratings on a scale of 1-5)

=====

Quality of Information: 3/5 It was okay I guess...

Ease of Use: It depends really because some methods are offline/online and well yeah I give it a 3/5

Layout: 4/5 I didn't really have a problem with it.

Grammar: 4/5 Okay.

Originality:3/5 Originality was alright

Note: Some methods are public.. and well I only like the first method which I see it has a bunch of potential for working.

The methods that would benefit you in this book are blackhat, don't buy unless you're blackhat lol.
