Thread: www.omc-wallet.com issues sending.

~OMC~ - May 29, 2014, 12:09 pm

Got 32,000 OMC stuck on there.

Everytime I try to send any OMC it just goes to a blank page.

Any tips?

Well, this could be a problem. The owner is suspected to be arrested, and there is an exploit in the site. I'm not sure what to do, hopefully someone has a solution to this.

Didn't you exploit it and abuse it and now you can't get the coins, karma appears to be a bitch.

Sounds like you drained the websites wallet with your exploit, what'd you expect?

I didn't even use the exploit, though. It can't be that.

I didn't though, lol.

If you look at my threads, I mined my current OMC with my miner.

I too am rather skeptical why you're using an online wallet when you have shown you use the Omnicoin-QT client ?.

Tenaxium - May 29, 2014, 1:04 pm

I know Luke. He would never steal guys, stop making false claims.

I don't, I use the QT.

Except I still have 32k stuck on O-W.

So you mined a shit ton of coins(spent hundreds of dollars doing it too) and put it on a website which you knew was easily exploitable.

Sounds like either you were trying to siphon coins from the website(most probable) or you were just an dumbass

(May 28, 2014 11:52 AM)~OMC~ Wrote: [\[CITE\]](#) So far I've only accumulated 20,000.

It's a long process due to confirmations.

Fuck, heres where you said you accumulated 20k from that site

Except I still have 32k stuck on O-W. So if you knew there was an exploit that someone could use to steal all the coins, why would you keep yours there? I don't see why now all of sudden you want to move them as opposed to when you apparently found this exploit.

Abe Washington - May 29, 2014, 3:17 pm

Lol ok. I took a pic. He admits he stole right there.

Now you look pretty dumb. Unless Luke is someone else and I am just reading this wrong.

Tenaxium - May 29, 2014, 5:55 pm

Oh sorry I meant Ruptured, Luke is his skype name.
