You know why I won't download this?

Because I would use all my time wondering what those images looked like if they weren't blurred :l

They look really nice though, nice job

EDIT: I had a look at your website, and I noticed this <http://prntscr.com/3nti0r> .. was this intended?

Is there something wrong with it or what do you mean?

Is there something wrong with it or what do you mean?Well, if you can show me the original pic of the wallpaper at 3:08 and 3:20 on your video, I will download your pack.

And about the website; I find that text background a bit annoying, because you can barely see it, yet you know its there.

Feels like it wasn't supposed to be like that, but if it was, you could darken the color.
