I decided to do a contest along with my recent giveaway.

You can find my giveaway by going to the link in my signature.

This contest is your opportunity to win up to 0.015 BTC. In fact there are 3 prizes.

1st prize = 0.015 BTC

2nd prize = 0.01 BTC

3rd prize = 0.005 BTC

I got these BTC myself from playing the bot, and it only seems fair I contribute to my friend somehow.

So I decided on this:

I need a video to give to him. It should be something showing of the features and explaining how to use the bot.

This is where you come in. Your job is to create this video and you will automatically enter to win this contest.

The contest will be running until the 10th of June 18:00 GMT+1.

How to win:

Create a video explaining [how this bot works](#), what features it has etc. and link to it here.

Who will win?

The best video will win. I will have the final word to decide which videos will win.

However, I will list each video here on this page and you will be able to vote and help me decide.

Post your votes here and I will keep track of it on the list.

Current videos/contestants:

Terms & conditions

You can create more than 1 video to increase your chances. Just remember: quality is better than quantity

You will upload your video to any site like Youtube so that I can see it.

The winner will be required to take down the video after I downloaded it, so that I can give it to my friend so he is able to upload it to his channel.

Failure to comply with the above will result in the prize going to the next in line.

I can cancel this contest any time if 3 or more videos have not been submitted before end of this contest.
