(Jun 2, 2014 06:15 AM)jayant Wrote: [\[CITE\]](#) My full review on this eBook?

Quality: 8/10

This e-book has a nice lay out. I reads fine, and will give you enough information to set up everything after reading this book.

Grammar: 10/10

I have not found any grammatical mistakes at all.

Originality: 8/10

This is an original method. I have seen this method before. However, in this e-book everything is explained clearly with a lot of tips. I've spent tried many methods, always pointing you in one particular direction that will make the method saturated. This however, will make you find your own way in this business.

Content: 8/10

This book is very informative and elaborate. You will be making a decent amount of money after the set up. Everything has been explained very clearly.

Overall: 8/10

Combining quality, originality, and content of this e-book You'll earn back everything you paid for this e-book after setup. This method is high quality and cannot saturate. You will be a real internet entrepreneur after following the steps in this e-book.

For any questions please do not hesitate to contact me.

?Chief Keef. - June 1, 2014, 2:45 pm

If you need any reviews done then HMU! :)

hirnfrost92 - June 1, 2014, 3:00 pm

Is this about PPD / PPI or some similar shit that has been around for ages?

Boomboxes - June 1, 2014, 3:03 pm

(Jun 1, 2014 03:00 PM)hirnfrost92 Wrote: [\[CITE\]](#) Is this about PPD / PPI or some similar shit that has been around for ages?

In all honesty, I'm not familiar with PPD/PPI, but after Googling I see that it's "Pay per Download", "Pay per Install"? If those are the ones, then no, the Ebook is absolutely not about what you mentioned.

Tomorrow - June 1, 2014, 3:03 pm

Hey, I PM'ed you. If you need a review done, I'd like to do one. ;)

Errors - June 2, 2014, 4:56 pm

I have received a vouch copy and here is my honest review

So from the get go I like to read an ebook completely before following directions or anything of this nature. I was a bit turned off from the get go considering it is semi-know but as I read on I did see there is a white hat method that requires a simple investment of time and common knowledge(which isn't a big deal considering in most ebooks you a required to make one whether it be white/black hat). Setup took a nice bit of time but it wasn't unbearable in any fashion. In my opinion this Ebook does have the ability to earn you a nice bit of cash if you a patient and consistent.

I have rated this ebook at 4/5 stars and the main reason behind the lost of a star was it is pretty time consuming.This is a well written, easy to follow, and semi-private ebook I enjoyed testing. If you are interested in making a quick buck I advise you to purchase this with no hesitation. GLWS Yeye
