Thread: [Free Flat Thread Design | #2](#)

'Dane - June 1, 2014, 8:21 pm

Alright, was bored so thought I would make this. Looks okay I think, but didn't take too long on it. That is why I'm putting it up for free. Not very big either, and basic if you are selling something small. Some of the fonts are paid, so you might have to use an alternative.

Anyways here is a preview.

Hope you enjoy it if you do decide yo use it. Message me if you need any help with anything and I will try to get to you.

Very minimalistic, but the text could be bigger. It looks a little bit plain though :)
