Thread: [Background with divider line](#)

Austerity - June 1, 2014, 11:19 pm

What I need is a background like the ones I'm going to display in this thread. I need them exactly the same layout with a divider line recognizable at the end of the image. I would also like them the same size as the ones displayed on this thread. If you do a good job something might be in it for you.

Examples

[IMG]<http://akboot.net/img/bg/body-3.jpg>[/IMG]

[iMG]<http://akboot.net/img/bg/body-2.jpg>[/IMG]

Thank you so much!

I would love to help you, but i can't seem to understand what you want?

"exactly the same layout with a divider line recognizable at the end of the image"

Could you reformulate the request?

Could you reformulate the request?See the divider line at the end of those examples, I want the image to have that. It does not have to look the same but I just need a line at then end of the image. I would like it to be any color.
