He's also a very nice guy, you can ask him anything and he is really creative, and takes time to finish the job at your needs. I'm really impressed with he's work, i even paid him extra because he deserves it.

Most designers makes flat designs, because it's easy and not much work. But not many people can make modern attractive designs like Atom can!

I would really recommend him to ANYONE, he WILL get the job done! It will fit all your needs, and even better then you'll expect. ??

If you're looking for someone who can do an extremely well designed logo or anything graphics-wise, this is your man. Worth every penny I spent, and for only 25\$ for what I wanted? What could go wrong? -Nothing because he fixes anything you don't like.

Wow, you can not imagine how happy I am with the designs. ? Atom did such a impressive job, he has done it better than I ever could expect!

He's also a very nice guy, you can ask him anything and he is really creative, and takes time to finish the job at your needs. I'm really impressed with he's work, i even paid him extra because he deserves it.

Most designers makes flat designs, because it's easy and not much work. But not many people can make modern attractive designs like Atom can!

I would really recommend him to ANYONE, he WILL get the job done! It will fit all your needs, and even better then you'll expect. ??

Extremely friendly and polite individual, and very nice to have a general chit chat with too. I placed an order and gave him a deadline to work to and he completed the design before that and did minor changes instantly with no hassle or problems at all, straight up does the job exactly as YOU want it and doesn't complain whilst doing it. From start to end provided great customer support and is extremely active, was able to message him at any time and get a reply almost instantly, I think the longest I had to wait for a reply was probably 10 minutes, if that!

I will definitely be using him again, was extremely happy with the service provided and the work he does. Very creative and friendly individual, highly recommended. Can't go wrong. Thank you once again!
