Roger Waters - June 2, 2014, 6:02 pm

It appears that we have been eating Watermelon wrong for all of our lives. In this video, Tom Willett shows us how to properly eat a Watermelon and hopefully this clears up some confusion some people have had for some time now.

Skorp - June 2, 2014, 6:04 pm

What the fuck... did... i... just... watch...

Pillows - June 2, 2014, 6:07 pm

Who the hell eats with a fork? That just doesn't seem reasonable.

Never use forks. The fork cartel has been telling people to use dangerous forks for years, you can poke your eye out with it.

New York BE - June 2, 2014, 6:15 pm

I never tried peanut butter with my watermelon, but it looks cool haha

Innovation. - June 2, 2014, 6:16 pm

Oh. My. God. I needed this for so so long. Thanks for posting this sir.

Generation - June 2, 2014, 6:17 pm

I don't need my fork I've got my hand's and mouth.

Grayson :) - June 2, 2014, 6:20 pm

okay what the fuck.

I thought it was a good idea to sit here and watch some old guy eat watermelon for 10 minutes

Generation - June 2, 2014, 6:21 pm

dropped the watermelon off my table which landed on my stereo, turning it on and playing Green Day's Welcome To Paradise on full volume. This made the animals outside go crazy and caused my Redneck neighbor to come out and shoot the animals and random things. This caused the people across the street to call the police. Now I have cops in my house, what should I do?

Sorry about that, I think you need another watermelon.

Don't let the fork cartel tell you to eat watermelon with a fork. If they try telling you that you need to then you should tell them no.

DustOff - June 2, 2014, 6:36 pm

Im happy to know I have been eating watermelon correctly all along. I did not know that there was a correct way.

Cryptic™ - June 2, 2014, 6:37 pm

Dammit, now I have to go down to the grocery store tomorrow and buy some Watermelons, Marshmallows, and Peanut butter.

Don't forget to buy some spoons, some people have forks because the fork cartel keeps telling people to eat with forks instead of spoons.

Aceman - June 2, 2014, 6:44 pm

Dude, what? Duuuuude... I think I'm going to be doing it that way from now on.

cyberducky - June 2, 2014, 6:51 pm

HazeFazeBRO - June 2, 2014, 7:25 pm

Morchid - June 3, 2014, 7:54 pm

Well that's an odd way of eating a watermelon. I just had watermelon like an hour ago and I just cut the pieces into small cubes and ate it with a FORK.

Morchid, the fork cartel fooled you into buying those forks. You need more spoons.

(Jun 2, 2014 06:07 PM)Pillows Wrote: [\[CITE\]](#) Who the hell eats with a fork? That just doesn't seem reasonable.

uMMM.... most people... I normally cut the watermelon out from the melon into cubes and put it in a bowl. I then put some in my own bowl and use a fork...it's quite simple to use... a spoon is hard... unless you have a scooper that can make them into a ball and then you can use a spoon.

???

Grey Goose - June 4, 2014, 3:28 am

Whaaaaaat daaaaaa fuuuuuuck did i just watch here!?

Doctah - June 4, 2014, 3:34 am

I like the way this guy thinks.

ctrl alt computer - June 4, 2014, 10:41 am

I just cut it into slim "half-moon shaped" slices > D < and eat with my hands,, when I get to the seed

section it's easy suk'em out and spit'em out then continue eating down to the peel/shell/whateveritscalled and scrape the last of with my teeth..... for any 1 who actually give a fuck about watermelon eating techniques :)

La Capone - July 5, 2014, 10:01 am

This is great,

I wonder if the taste combination actually tastes good xD

Nobility - July 5, 2014, 10:21 am

What? Who put's peanut butter and marshmallows with watermelon? Though that looks like it takes much more work digging through the watermelon with a spoon.

Cr?ator - July 5, 2014, 11:51 am

Why does it matter the way we eat it? It'll still get eaten no matter what. So why does it matter?

Douchebag # 145 - July 5, 2014, 9:51 pm

What makes you so certainly convinced there even exists a "watermelon"?
