Hey this is a noob question, but how exactly do i use these. I have used VPN`s but they are easy to install however as too proxies i never quite got the set up right. Could you please help me out?

ChaseTheStreamer - June 2, 2014, 10:00 pm

This guy is awesome EVERYONE of them works for me great job!

botrus - June 2, 2014, 10:01 pm

This is an elite proxy list used for adding views, followers, it blocks your IP address and is used for programs that use bots to mask your IP address

What are you needing them for?
