well then - June 2, 2014, 11:57 pm

I WOULD RECOMMEND NOT BUYING THIS IF YOU DON'T LIVE IN THE US, SINCE ONE METHOD OUT OF THE TWO DOES NOT WORK PROFICIENTLY OUTSIDE OF THE US. (You'll still make your money back since method #2 is super easy and doesn't require a location)

TOS:

Money back guarantee is only provided if you have sufficient evidence that BOTH methods don't work for you.

Support is only over HF PM, not skype.

Don't leak.

VOUCH!Thanks for the vouch mate. I appreciate it dearly.

A vouch copy of this eBook was given to me for a review. I am in no way affiliated with the seller.

Quality: 9/10

A 9 page ebook containing detailed steps and a nice font alongside helpful pictures. Each step has it's own page making it very easy to follow. It only dropped below 10 due to some text overlapping two pages. (I'm picky)

Ease of use: 7/10

There are two methods given. The first is the trickier one. It's plausible and could actually be quite fun however method 2 is one HF would prefer. The ebook will make your money back that's for sure. A 7 year old could do method 2.

Grammar: 10/10

There were no errors in the writing and I found the text easy to read.

Originality: 9/10

The first method is something very different. I would do it if I lived in a city but I don't so poor me.

The second method is slightly known however it's unsaturated and will be FOREVER.

Overall: 8.75/10

IT'S \$3 AND YOU WILL EARN THAT BACK EASILY. Buy it.

@OP: Good luck with sales!

#RockY - June 8, 2014, 12:24 am

I can do a brief review give me a vouch copy bro. :)

Anyway good luck with sales!

Cub? - June 8, 2014, 3:36 am

I received a vouch copy from [Barker](#).

I'm in no way affiliated with the seller.

Originality ?????

I have not seen this method anywhere else but I'm pretty sure that it's pretty common.

Content ?????

Very detailed contents with pictures. It contains 2 methods that you can use to earn money.

Ease of Use ?????

There are two methods. One is somewhat hard but the other one is relatively easy. Also, you need to have a phone to earn money.

Organization ?????The layout is simple and clean. Pictures and hyperlinks are included!

Grammar/Spelling ?????

I found a few spelling mistakes but it is readable.

Overall ?????

It would take some effort to earn money with the method but you can definitely get more than what you paid for in less than 1 day if you put some effort in!

well then - June 8, 2014, 5:52 pm

I appreciate all the vouches.

PM me if you are a reviewer and like to review this product.

#RockY - June 8, 2014, 9:55 pm

I received a vouch copy from Barker and i have to admit that his book is worth spending your 3 bucks.

My review :

Ease of use (8.5/10) : Very easy to use and detailed information

Grammar (9/10) : I read the book in 5 minutes and couldn't find a grammatical error.

Originality (10/10) : I have never seen book like these before

Worthy (9/10) : As i have said earlier this is worth spending your three bucks.

Drawbacks : only one that i see - you need to live in a popular city ... else every other things are fine.

So, my overall rating : 8/10 ; Must try this book.

I VOUCH FOR BARKER!

I bought the product from him and, me not being smart I did not see that you required a smartphone to do this method, so I asked for a refund and he did not hesitate.

Thank you so much brother.

I have a copy of this ebook and here are my thoughts: The methods in this ebook work but sadly neither of them work in Canada. If you are in the US you can definitely make more then you paid for this ebook within minutes. It has my vouch!

Good luck with sales!

Blvck Scvle - June 9, 2014, 2:13 pm

I just bought this eBook, why not. I'll post my thoughts after I check it out.

EDIT: There are 2 methods that both work, the 1st requires more work but can possibly be used as a legitimate job. The second will make you some basic money easily.

I got a vouch copy of this eBook, and I must say I am very impressed.

The first method does require some work & a little bit of time but you will make your money back very fast

The second method as well is easy and you can make your money back.

I would recommend buying this book because it is cheap and does not require a lot of work. You can make your money back really fast. The book has a lot of content and the writer tells you what to do so you don't have any misunderstandings.

This looks good, however the grammar could be better on your thread design !

eBooks are knowledge at a price tag.

????oney?????????? - June 14, 2014, 12:33 pm

Hello, i am ELIXER.

And i am going to be reviewing this eBook today.

I was NOT given a vouch copy from the writer of this eBook.

Originality: ??????

I have personally never even heard of the applications presented in this eBook, and have never seen an eBook use these unknown Applications to help there buyers make money

Ease Of Use: ??????

The first method in this eBook takes a lot of effort on the buyers part to use, but the second method is perfect for the potential buyers of hackforums. Which is why i give the Ease of Use a three out of five rating.

Content: ??????

The content of this eBook is great, it didn't take the creator to much time to think of the method as he was not the creator of the applications presented, but he was smart enough to convert the apps into a great money making technique. And i am telling you if you use these methods frequently, than you will see a good amount of money come back from it.

Organization: ??????

This eBook was VERY well organized,

there was two different sections for the two different methods, there was very nice pictures to help describe what you should be seeing at that specific point in the method, and the font / text was very easy to read. Overall this was a very well laid out and well thought out layout for this eBook.

Overall: ?????

I give this eBook a four out of five rating because of the pure fact that one of the methods in the book requires a good amount of work and time put into it and that might draw off some people from using one of the methods, the second method is what really makes the eBook shine, and i guarantee that if you use the second method, or take the time to use the first method that you will see a good amount of money come in from it! I am very glad i purchased this.
