Thread: [Feeling Sad Lately... Need New Anime to Watch after ending Bleach..](#)

God I don't have enough words to explain how much I really enjoyed watching bleach, it's one of those series where you ONLY want to watch it by wiring your computer to a widescreen, lay down in bed with a midnight snack and watch it episode by episode.

Loved the series and so far my #1 anime followed by #2 naruto..

However I recently finished watching the whole series, and I know they might restart the episodes in a later date since bleach was catching up to the manga however it will only be 1 episode a week and gonna take a few months / a year before they start being released..

Tried watching fairy tail but its just not the same feeling I had when watching bleach.,,

watched a few episodes, don't really like it seems a bit too calm when compared to bleach and it seems a lot more "cartoonish" may due to it being a really old anime.
