Thread: [The real use for Prestige; I'm onto something!](#)

Stealth™ - June 3, 2014, 8:37 pm

The real reason that prestige exists is to accurately measure the length of your penis in inches.

Hear me out.

Plug this equation into Google, substituting all the values needed, and post how big your penis is.

Code $((\text{Absolute Value of (Reputation - 5)})/(\text{Prestige} + 10)) + 5$

My penis is 7.21 inches long :D.

It'll be creepily accurate with your real size too ;).

Arduous - June 3, 2014, 8:39 pm

$((0-5)/(0+1))+5=0$

This equation claims I have no dick. That's a lie.

The_Rat - June 3, 2014, 8:40 pm

lol what were you thinking of when you thought of this im going to do it

Results : i got 0/11

WiFi Enabled - June 3, 2014, 8:41 pm

seems pretty legit.

Omni knows the size of our ePenis guys, I wonder who has the biggest.

Well, since Omni's reputation is currently 199 and his prestige is 1020, that means Omni has a penis that is...

$$((199 - 5)/(1020 + 10)) + 5 = 5.19 \text{ inches!}$$

gore - June 3, 2014, 9:11 pm

$$((\text{Absolute Value of (Reputation - 5)})/(\text{Prestige} + 10)) + 5$$
