Thread: [\\$20 PP | Signature | Thread Design |](#)

Forward™ - June 3, 2014, 11:06 pm

Hello, I am in need of a thread design and a signature, I will be giving \$10 for a signature, and \$10 for a thread design. The best thread design and best signature will be chosen when I feel there is ones that fits my interest.

The thread design will be based off of the one on my thread:

<https://hackforums.net/showthread.php?tid=4233017>

And the signature will be completely new.

Honestly I don't think you are going to get much for \$5 per.

You need to invest a little more than that if you want something that is half decent.

Changed it to \$10 for each. The thread design and signature.

Working on your signature now, will edit this post when finished. Not sure why I'm wasting my time on this...

The signature is watermarked and non-transparent to protect my design. I can remove them/make changes if this is chosen.

Outcome:

Why not just pay someone to do it in the paid gfx section?
