And also about joining the KKK.

What's worse is that this isn't even going to make a dent.

It will be awkward for Justin when he has to explain this to all of his black rapping buddies. I wonder why he thought it was a good idea to say any of that on camera anyway.

Antoin(e) - June 4, 2014, 4:20 pm

Of course it won't make a dent.

People are used to TMZ trying to ruin celebrity's images. TMZ has gotten so annoying over the past 2 years no one really gives a shit.

This is just going to probably ruin his image upon elders some more, but for the young population, it won't do anything.

This is probably about 1% of the offensive things Justin has probably ever done.. He is immature, but the young population will not care that he done this.

Oh Pony, the comment section is really interesting on this one.

Oh fucking hell, this is perfect. He has been fucking up the past couple years in the media haha.

Kid's an idiot. Hope he tries to get evicted from the USA again.

I forgot he was the first 14 year old to film himself doing something stupid....

This kid already has a bad rep, so what now? We know how stupid he is, and tbh he could have been asked to, knowing him, he may not even know what the KKK is.
