Thread: [UDP-LAG Stresser wanted](#)

Db233 - June 4, 2014, 5:42 pm

Hi guys, Im desperatly looking for a stresser that actually ahs a working udp-lag function. i have bought 4 so far none of which actually had a working udp-lag feature

I want to able to lag but not boot psn connections..

Thanks,

Db

Hello, Db233. I see you're looking for a stresser, I highly suggest you check out [this section](#). If you're not sure which stressers to look at I can only suggest you to [this one](#), it's the only one that I've used that worked/is still around.

If you have any questions, please feel free to PM me. ?

Hey man,

I use Titanium Stresser. It has a UDP lag option to mess around with people but also has the cheapest prices out and hits like a truck.

Czech it out: <http://titaniumstresser.net/purchase.php>

Have a good day :)

I suggest Apocalypse Stresser by @ItsFluffy

<https://hackforums.net/showthread.php?tid=4192403&highlight=apocalypse+stresser>

This is the one I currently use, and works perfectly! Has everything you need.
