What is E-Whoring?

E-Whoring is sexually manipulating a person/people to pay you money for a sexually desiring act. Most of the time, you are pretending to be someone that you are not, because the majority of the people that E-Whore, are guys pretending to be girls.

E-Whore Profile

[\(Click to View\)](#)

When you are E-Whoring, you want to be the same person for everyone.

The more you believe in your person, and act like the same person, the more believable you will be.

Some ways of remembering things like this, is by saving basically your own information on a .txt file on your Desktop.

You can either make up information, or if you would like to have it generated, you can click on this link. - [FakeNameGenerator](#)

Doing this prevents people from making new profiles, and messaging you to see if you'll say something different. This will preserve your E-Whore's reputation, and possibly keep potential customers.

Here, you can find an example of one of these that I have done and used before.

Payment Methods

[\(Click to View\)](#)

There are many ways you can get paid whilst E-Whoring. While some of them may be easier to get, but more risky and vice versa, there really is no best way to get paid.

Amazon Gift Cards

Getting paid with Amazon Gift Cards is always safe and secure, but the problem is you would have to order things so it's not entirely the same thing as having cash.

You can have your customers send you Amazon Gift Cards straight to your email when they buy, by sending them - [This Link](#).

Methods

Double Dipping

[\(Click to View\)](#)

This method is really simple, and doesn't take much skill at all.

To perform this method, you need to basically tell someone that you didn't get any money by sending them a picture (edited of course) that shows that you didn't get anything. Some of the time, they will be in the moment, and assume that you are telling the truth and go ahead and send you the payment again.

Fake Kik Camera

[\(Click to View\)](#)

When you are E-Whoring on Kik, people will probably ask you for live pictures to prove that you are really a girl.

Problem solved.

To make the E-Whoring pictures send as "Camera" from Kik, you can follow these steps.

BlueStacks/Android

To do this on BlueStacks, you need to go to the Google Play Store.

First, you need to find [THIS](#) button, and search "Fake Camera"

Since you do not already have this installed, you will see a button that says "Search in Play for Fake Camera"

You should then be directed to the Google Play Store. Look for [THIS](#) and download it.

After you have downloaded this, navigate to your Kik application, and go to a conversation and try to send a picture from Kik Camera.

It should then Prompt you to open the Camera with your Fake Camera Application, allowing you to send "live" pictures from your computer.

iPhone

If you have iPhone, and you want to do this method on your phone, you have to follow these steps.

To do this, your phone must be jailbroken, and have Cydia installed. If you need help with this, please send me a PM.

Once you are on Cydia, you should have BigBoss Repo already installed, but if you do not, install the repo address below.

Code <http://apt.thebigboss.org/repofiles/cydia/>

Once you have this repo installed, search for "Kik Camera Gallary" and respring your iDevice.

Once you have the tweak installed, you cannot actually take pictures from the kik camera, as it only allows you to use the Fake Kik Camera.

The Actual E-Whoring Process

Whether you are using kik to E-Whore, or Skype, these tactics are fairly similar.

First off, you want to make sure that you can weed out the people that are just going to waste your time that you could be using to milk the money out of someone who has money.

Find out if they have a job, whether it'd be high paying, or just minimum wage.

If they don't have a job, the best thing you could look for is if they have a gift card as I have found quite a few people have extra ones they haven't redeemed.

There are different ways you can talk to people. Remember, you are a girl, but this does not mean you are stupid and talk like this. "hi bb u wna buy pix ;)"

Whilst some people may respond to that without a problem, it's honestly a turn off for most guys. You need to adjust based on the person talking to you.

If the person talking to you is using good grammar, or they seem smarter than the average victim, try using better grammar.

Here are some words you can substitute:

You: u

Thanks: Thanx, ty, fank you/fanks

Okay: k, kk, okie, kay, otayy

Babe: bb, bby

Here are some smilies you can use:

c:

(:

Sometimes, you can also use extra letters when you are talking to them to make it seem more girly. Also, I prefer using two question marks, if it really matters.

Interest. When you talk to your victim, make sure you take notes on the things that he tells you. Ask things about him, show him that you are not just after his money. Also, it's important to not to keep

redirecting the conversation back to buying pictures if they put you off for later, that will turn them away from you.

Ask them if it's them in their profile picture, or have them send you a picture of themselves. Compliment them. Even though you might not want to, call him cute, hot, sexy, attractive, whatever you would want a girl to call you.

Some people don't really care about paying for pictures, and I agree with them. Paying for pictures is honestly stupid.

You need to give those people another reason besides the fact that you are whoring yourself out for money.

Telling them things that have happened to you in the past, or things that you are dealing with now whether it be emotional, financial, or whatever may be going on, this will make them feel like they should help you out. Especially if you can get this person to actually believe they have feelings for you, they would do anything to help you out.
