It's a pretty nice site, but it doesn't show the fluctuation of OMC prices, which would be cool to add.

Crypto™ - June 9, 2014, 5:25 pm

A fine job on this site :) It's like BitcoinCharts. But with Omnicoin :D En pointe again Sh1eld.

VRUMM - June 9, 2014, 9:16 pm

Added volume and price from allcrypt api. Will get wider range of data for price later.

From what I can tell that has to do with people burst mining with gigahashes of power. The difficulty doesn't readjust for about 10-15 minutes and they've often stopped by that point.

yep, they get in and get out before the difficulty readjusts.
