Thread: [Scammed by 0x68 | uid=1125619 | \\$120.00](#)

Ryan Cleary - June 11, 2014, 3:19 pm

Pretty much identical issue to scam report here:

<https://hackforums.net/showthread.php?tid=4277304>

Dstat will be posted soon here:

78Mbps doe lol.

Bought his API, hoping for the advertised power, is down 90% of the time, and when its up, it gets a fraction of what was promised. Promises 10Gbps TN+, we got like 80Mbps with 1 attack running, even if its a shared node, this is fucking ridiculous.

User profile: <https://hackforums.net/member.php?action=profile&uid=1125619>

Just like the other scam report above, all he does is make excuses about "packet filtering" and how its not his fault....Whatever. I was patient for way to long.

Here is the skype convo providing the shit he said:

Tells me I am the only when having problems, when obviously he is lying

He then failed to hit me offline even though it worked before, and said packets are being filtered...FML, I charged back on this fool.

?Chief Keef. - June 11, 2014, 3:19 pm

Legit report. Phex didnt you know hes a major scammer on loose? He scammed a guy and said his skype was jacked then said hes off to vacation.

Asuna ? - June 11, 2014, 3:22 pm

Wow I know Phex and he wouldn't lie
Legit scam report !!

/Jigsaw/ - June 11, 2014, 3:32 pm

He made a thread about how his skype was hacked so.....

Ryan Cleary - June 11, 2014, 3:36 pm

(Jun 11, 2014 03:32 PM)+Hopsin Wrote: [\[CITE\]](#) He made a thread about how his skype was hacked so.....

Lol, bullshit, it wasn't hacked...Been talking to him for weeks.

/Jigsaw/ - June 11, 2014, 3:37 pm

(Jun 11, 2014 03:36 PM)PH?x Wrote: [\[CITE\]](#) Lol, bullshit, it wasn't hacked...Been talking to him for weeks.

Look man, I'm just saying he posted a thread saying he was hacked

Understalker - June 11, 2014, 3:38 pm

Proof power is shit:

Ryan Cleary - June 11, 2014, 3:47 pm

(Jun 11, 2014 03:37 PM)+Hopsin Wrote: [\[CITE\]](#) Look man, I'm just saying he posted a thread saying he was hacked

Wasn't trying to sound like a dick too you, just saying its bullshit :D

Marky Marky - June 11, 2014, 4:09 pm

Legit scam report.

I advise you guys not to buy his service obviously.

Barack Hussein Osama - June 11, 2014, 5:10 pm

I hope you get your money back. Sadly in the case of the other people in the thread you linked, they had payed via bitcoins, so most likely they will not get their money back from the scumbag known as 0x68.

hyhyyhhrf3 - June 11, 2014, 5:14 pm

Damn, niggas were callin me crazy in that other thread

-Distro - June 11, 2014, 5:35 pm

Damn, I paid also and after all these scam reports I seriously want to charge back.

He hasn't even processed my order yet.

How can I charge it back if he sent it as an invoice and would I even win the dispute?

hyhyyhhrf3 - June 11, 2014, 5:39 pm

What are you talking about? I thought he was your best friend? Of course your best friend wouldn't scam you ?

-Distro - June 11, 2014, 5:49 pm

(Jun 11, 2014 05:41 PM)Barack Hussein Osama Wrote: [\[CITE\]](#) What are you talking about? I thought he was your best friend? Of course your best friend wouldn't scam you ?
I'm not friends with this guy D:

I've only talked to him 3 times before man.

I guess I'll just wait and if he doesn't give me a refund or something then I'll attempt to charge back the payment. I'll give him until the 15th which is when he said he is coming back.

Aceman - June 11, 2014, 5:51 pm

Just so you know his Skype wasn't jacked, there was proof of it not being stolen on the thread you linked. Hopefully this will be resolved and he will be out of business afterwards.

Make sure to add it to the [deal dispute database](#) so he's more inclined to solve this.

(Jun 11, 2014 05:14 PM)Dominick G. Wrote: [\[CITE\]](#) Damn, niggas were callin me crazy in that other thread
We knew Dominick!!!

Dankrupt - June 11, 2014, 5:55 pm

I was trying to defend him a bit on the other report, but after seeing this it's pretty clear you guys didn't get what you paid for.

He was a good friend, sad to see this happen :(

Barack Hussein Osama - June 11, 2014, 6:10 pm

Its always sad to see someone you trusted turn into someone like this.

0x - - June 15, 2014, 12:32 pm

- snip aka reserved post -

When I get back to my main PC since I just got home not too long ago, I'll post something here to prove my point. Until then, I will not be replying to this since it's turning into a flame war.

Should be posted around tonight.

hyhyhhrf3 - June 15, 2014, 2:32 pm

Can't wait to hear this, lol. Going to give up with the , "Skype hacked", game?

Ryan Cleary - June 16, 2014, 10:57 am

Still nothing from 0x68 :(Sad day.

SIM-1641546 - June 16, 2014, 11:02 am

Legit scam report. I hope you get your money back.

0x - June 16, 2014, 12:45 pm

Sorry for the late reply, I had stuff to do last night so I wasn't on in the past 15 hours.

Alright so you make a dispute stating your API is not working, but I've even showed you multiple times it works and I think it's time for HackForums to see for themselves that it works as well.

Here's a quick video of YOUR API that you were SOLD working just fine.

[Video: <https://www.youtube.com/watch?v=Xg9HdWJL7Sg>]

It's out of my responsibility what you do with the API and how you use it. If it's not working on your stresser than that's your problem and not mine.

I sold you a working product, the attack is being sent by it and that's all that matter right now. I was advertising a working API that hits, like I said above, it isn't my issue if the API is not working via your source or whatever you're using it with.

Due to the evidence above showing it works, I will NOT be giving you a refund. Also due to opening a chargeback, your APIs has been suspended.

Also ontop of that, I've taken evidence of your OP and a cache version as well and showed it to PayPal to prove it was not a unauthorized chargeback due to your HF UID is in the invoice and I have also logged the IP that you did the transaction on.

I sold you a working product, the attack is being sent by it and that's all that matter right now. I was advertising a working API that hits, like I said above, it isn't my issue if the API is not working via your source or whatever you're using it with.

This will be my last reply on this thread due to the evidence I provided being pretty clear. I got nothing else to prove myself about and I don't care what you have to say. With that being said, have a great day.

itsmyard - June 16, 2014, 12:48 pm

Nope, your power was not as advertised, you sold me a malfunctioning product that was down about 50% of the time. So, yes, you can show proof of it being up with you being the sole user showing it working as much as you want, doesn't change the fact that me and about 100000 others reported the same issue. Stop trying. Not only this, but you VERY evidently tried to cop out of the deal by saying your skype got jacked. LOL. I bought it from you via skype before you made that claim on HF, and then talked to you about it after you made the thread, so you were on it, both before and after. It was you the whole time -.-.

I also like how you constantly showed me ONLY that guy and the other guy in your personal TS being booted off, thats it. When I asked you to boot me off, you said you couldn't due to packet filtering, then the next day, the 1 hour its actually working, i get booted offline by it fine, rendering your packet filtering argument fallacious.

People know I don't lie about this shit, I have done over \$20,000 in deals, not a single issue.

As far as the dispute goes, pretty much everything you just spewed pertaining to the dispute is retarded, and has nothing to do with proof of authorization lol...An HF account + UID on invoice proves that the PayPal account is mine? PayPal knows that because its my HF account, I must be the PayPal owner too. Imao. Good logic there bro. You won't win the dispute...Obviously, nor should you, you are a scammer, and apparently a compulsive liar. Go fuck yourself.

EDIT: Confirmed compulsive liar, friend sent me this after talking to skype with him.

....Have never exchanged with him...ever.

EDIT 2: He is continuing to try to lie and false advertise even further. What a fool.

Saying his API gets 1-3Gbps per attack! LOL, DSTAT in OP shows 78Mbps! And I was the only one using it....This guy is a joke.

?Chief Keef. - June 16, 2014, 12:56 pm

Why is it that in EVERY demonstration, literally you always DDOS the same "person", is done on "Winterfield1"?

After researching "Winterfield1" I found he's on a 3 Mbps residential connection line; are you really trying to prove your API's are working as promised by dropping a 3 Mbps line when you're guaranteeing 20 Gbps TN? Like. Really?

Things really aren't adding up, seriously. Why does this Winterfield1 folk always sit in you teamspeak server after you've ddosed him 10+ times? This video proves absolutely nothing whatsoever. For all we know the guy could have accidentally ripped his router out of the wall and he disconnected -- please show us a LIVE DSTAT of your API's.

Aceman - June 17, 2014, 5:54 am

He won't show a live dstat because his APIs do not work as advertised. Shared APIs between several stressers are a bitch aren't they 0x68?

-Distro - June 17, 2014, 7:08 am

I bought his service almost two weeks ago and 0x68 never gave me my product. He said he'd give it to me before he goes on vacation. Then he doesn't respond to me and goes on vacation then doesn't give me anything.

I post reporting him and stuff then h comes back today saying I am not getting my APIs and no refund either.

Scammer. Clear as day.

Nice Net Bro - June 17, 2014, 11:37 am

the funny part about this is 0x68 believes his own lairs and bullshit hes making up..... how phatatic could you be.....

Aceman - June 18, 2014, 9:44 am

Hey Ph3x, might I recommend you add this to the [deal dispute database](#)? He's refusing service to anyone he sold to and I think that would help deter others from buying off him or at the very least encourage him to resolve this.

Eliris - July 10, 2014, 6:54 am

Big scammer and neg abuser, a simple search using his UID will show his repeated scam attempts and his NEG ABUSE.

<https://www.dropbox.com/s/d1btreicopy13rx/Capture.PNG>

He neg abuses me for no reason when all i said was there was evidence he was scamming.

He knew i was a normal member and decided to neg abuse me because he can as he has the authority of a ub3r status member of this community. Instead of being a role model, hes a LQ low life.

Tl;dr Scammer, LQ member, Neg abuser/Status abuser

Ryan Cleary - September 22, 2014, 12:28 pm

Scam report still not resolved. I don't know why people steal deal with that kid.

Aceman - September 23, 2014, 8:43 am

Couldn't tell you why they still do it. He's known to rip people off for the smallest amount of money then buy his way into every group he can. From what I've heard he spent \$200 to join Null.

SecretOfTheFox - September 23, 2014, 12:03 pm

0x68 is a fag and a compulsive liar. His stresser is a shit.

Back then, he failed to take down my home connection. Enough said.

You shouldn't deal with him, ever.
