This by far one of the best crossover amv's I have seen on the editing scale.

What do you think guys?

TheElo124 - June 12, 2014, 2:58 pm

that music is terrible please die in a hole you terrible person

Kina - June 12, 2014, 3:37 pm

Im gonna agree with supa here. Why the fuck is that the song? It ruins the whole video. Literally just stopped after watched 33 seconds. That song doesnt belong anywhere near Trigun. It doesnt go with it at all. Im not saying the song is bad but it doesnt fit.

TheElo124 - June 12, 2014, 4:51 pm

yea if you are gonna do this use some jazz or blues depending on the theme of it

sonikk4ever - June 12, 2014, 5:20 pm

I respect your opinion guys but I don't respect the way you trashtalk about the legendary band U2.

I assume you prefer listening to Skrillex all day, all night long?

The generation Y, has no sense of morality left in this world, sadly enough.

Quick edit:

Your opinion versus the opinion of critics.

No, I do not listen to Skrillex all day and all night. Regardless, U2 isn't that great

"claims U2 is a legendary band then procedes to claim that i listen to skrillex all day " That's your sentence yes? Lets call it an informal sentence.

But, can you repeat yourself once more?

But now in English?

Oh and by the way, is that you? (Would be a shame if you wouldn't know what that is)
