This is an Ebook I use to sell so the Niche included might be Kinda out dated (Still earns) but the Method is still the Number One Way to get Started in CPA, a steal for Five dollars.

This is the prefect buy for someone looking to Start CPA and who is determined to make it work, you can add your own twist and use this method over and over again til you are at your desired earnings.

No investment Is needed

Who is this ebook for? This ebook is for someone who know nothing about cpa and wants a step by step guide on how to get your first lead. What's in this ebook? This ebook not only teaches you, but includes simple one landing page + video, how to get your first lead with CPA. This method teaches step by step from setting up to getting traffic and leads. You don't need any money, and can epect to see some money as soon as 24 hours!

Spoiler ([Click to View](#)) (Jun 27, 2014 08:31 AM)chr9ped Wrote: [\[CITE\]](#) I received a vouch copy. Here is my review of Spartan's ebook called CPABeta.

Originality: ? ? ? ? ?

I was not overwhelmed by the originality in this ebook, I have seen some similar methods. There is a nice niche included though.

Grammar: ? ? ? ? ?

There's a few errors here and there, but nothing special.

Layout: ? ? ? ? ?

There is not much to say about the layout, it is very simple.

Overall: ? ? ? ? ?

This is definitely worth the money. It is a great guide for people who are trying to get into the CPA/PPD business. It is really easy to follow the steps and there are a few nice tips in it as well. A nice pack is included so it is very easy to get started right away (it is a good niche actually imo). You'll have everything you'll need. This ebook is worth every penny, if you have a brain then you'll earn twice the price of the ebook in the first day. (Jul 10, 2015 05:32 PM)Alside Wrote: [\[CITE\]](#) I have read this ebook and here are my thoughts on it. The layout is pretty nice, the author uses color coding in parts to make them distinct which is nice. Maybe some more pictures would be nice but besides that I have no problems! I did not notice any English errors which is always nice. The methods contained in the ebook are not too hard and should really help you get started in cpa. The ebook is for someone that is completely new to cpa, so if you are a beginner I recommend this ebook.
