Thread: [\[Probux\] Are these bad referrals?](#)

Slade Wilson - June 13, 2014, 2:44 pm

I recently started Probux and made the 60 cents needed for 3 referrals. I am wondering if they are bad ones.

Those are good refferals, just make sure they don't go under 1.5

Thank you! Do you have any tips for a beginner at Probux? Thanks in advanced :)

Don't rush cashing out when you can, cashing out will cash out ALL of your balance and leave you with nothing to renew referals. Make sure before you cashout to renew them yourself so you don't have to worry about money.

So like everytime I want to cash out, I make sure my referrals are renewed?
