Thread: [SkullTraill's Animusic Game. Thread 1.](#)

SkullTraill - June 14, 2014, 4:40 am

OK so I'm making an experimental game I post a music track (ignore the video if I post a youtube link), and the objective is to post an image or a gif or even a short clip of an anime that perfectly describes the music.

If this gets popular enough I'll be giving out prizes etc to the winners.

OK here's the first one:

This ones easy, I already have a scene/character in mind. To make it even easier here's a hint (I'm thinking of a pair/couple) :P.

Don't ask why, I just thought of this when I heard the song...

Not the worst, but the pair I'm thinking of are in a much more mainstream anime.

Here's what I think of when listening to that song:

VERY CLOSE. I almost picked these 2 myself and I might change my mind haha. I loved Redline so much.

However the pair I was originally thinking of are in a much more mainstream anime, it's a shonen, long running and one of the top 10 anime in terms of popularity (last hint).

EDIT: If no one posts the right one in 24h, you become the winner and I'll post what I was originally thinking.

Fuck, had to watch Redline again. Seriously one of the best movies I've ever watched.

So apparently no one got the right couple, so here, these were the two I was thinking of;

But since no one guessed it, JP and sonoshee win this thread. Next thread coming soon.
