This is really decent for a free download...

Colour palette is pleasing to the eye, Icons are decent. I like it.

Hey guys this is a pretty old design. I'm going to be releasing a newer one today that is 10x better than this one lol. Enjoy it though, and message me if anyone needs help.

Dane your designs are pretty awesome...Teach me master!

goldenarms_ - June 30, 2014, 3:04 pm

I like it. I'd use a different icon for efficient. Maybe a clock or man running.

Caillou - June 30, 2014, 3:05 pm

The colors are a bit too dull for me though.

The overall design looks sexay though, nice work!
