Thread: [Got scammed \\$104 MP by Blue Crack \(uid=2010143\) \(Reported to the local police\)](#)

Pineal Gland - June 15, 2014, 5:32 pm

Scammer: <https://hackforums.net/member.php?action=profile&uid=2010143>

Amount: \$104 MoneyPak

PLEASE SPREAD THE WORD THAT THIS USER HAS MULTIPLE SCAM REPORTS OPEN.

UPDATE (5)

A HF USER HAS ASKED ME TO POST PROOF OF RECEIPT ECT, HERE YOU GO.

<https://imgur.com/a/jSoU3>

UPDATE (4)

<http://prntscr.com/3tvx1u>

I was told to make a report.

On the other hand i recorded FIRE doing black-hat activity's.

I pretended to get on his side and say i believe that Yak took the money.

Didn't take much SE to get on his side, once i did that he showed me some of this stuff so i could make my money back so i could close this report.

- Identity theft.

- Amazon fraud.

- Bank fraud.

All on a USB drive bullet proof.

I also have one of my buddies dox him which wasn't even hard.

All he had to do was give me my money.

Guess sometimes these folks don't understand when i say i mean it i take it to the next level.

I'm sure i'll get my money back from MP and if not then atleast a reward from the local police department will do right? :)

Their sending me the court papers through mail but came to my house so i can file the investigation.

Will update more soon.

ANOTHER UPDATE (3)

OK SO I JUST NOTICED READ THROUGH ALL THE SCREENSHOTS PROOF ECT, HE WAS GETTING \$90 BTC FOR THE \$104 FROM YAK. NOW PAY CLOSE ATTENTION HE OFFERED ME \$102 BTC FOR THE \$104 MP WHY WOULD HE WANNA LOOSE MONEY? OBVIOUSLY IT WAS ALL A SCAM I JUST NOTICED THIS THERE YOU GO GUYS.

He has agree'd to repay me within 18 hours, if so i will close this thread as resolved.

UPDATE: Now he says he is not going to pay me back, obviously he REALLY did scam me. I hope he gets banned very soon. :)

UPDATE 2: He's going to get the MP refunded to MP and give me my BTC, give the user 12 more hours. If this isn't resolved i am done trying to work something out with him.

Simple story:

1. I gave code to FIRE
2. FIRE claims the code doesn't work. (\$0.00 amount of funds)
3. Claims he didn't get no money on it.
4. Changes up story and says PAK scammed him for the MP claiming PAK said the code didn't redeem. (Not my problem, he gave the code to someone else my code was working i have receipt proof. I have been with HF for 2 years and never attempted to scam someone and never open a report like this.)
5. Says he will pay me BTC because he claims its his fault for sharing the code to PAK taking his OWN risk.
6. Takes Pak word and says PAK says it didn't work now he is trusting him?
7. SAYS he claims to call MP and neither him or Pak has claimed the code. (MoneyPak is closed today)

It's a simple story.

Fire scammed and trying to make PAK take blame and changes story up and says it wasn't him or PAK. Fire is the scammer and change the story up alot of times and got caught multiple times lying. It's all in the screenshots so everything is bullet proof.

LOL that Gucci guy threatened to Swat me a few days ago for not exchanging with him ???
I wouldn't worry about him

On topic though

I have done a lot of MP to BTC exchanges with Verpex and never had any problems

I wasn't online at the time or else I would've done it for you

The way I see it is Verpex gave the person a working MP code...Fire or Yak redeemed it and tried

to pull a fast one saying it was already redeemed.

Good luck getting this resolved

Im pretty sure last time i checked that when you have a open scam report you dont tell the person who you owe money that they have a certain amount of time to pay im pretty sure its whenever they can pay while the scam report is open..

If you look at his recent reputation or just by searching his UID you'll see that many members claim he's scamming.

I find this report 100% legit.

Pineal Gland - June 17, 2014, 3:03 pm

I called MoneyPak, they are working on it.

But if he really didn't scam me i told him he could lend me the BTC and i'd pay him back either way.

I just need it right now for investments.

So far we have been keeping good contact and he seems to be good guy but you know sometimes they trick you.

Anyways i'll update this thread and if i get my money back or a loan i will close this thread as resolved.

Wish me good-luck fellows.

But now he will be paying more for his black-hat activities.

He has like 3 beats coming to his drop house.

Threats can be real so just in case PRINT out all of the chat history and keep screenshots and such on your PC. Those are all recent in the past 3 months.

You had another paypal with your REAL name you didn't wanna open up.

Even if you didn't claim you probably had a friend do it for you.

That's why i recorded the black-hat activity and caught you slipping red-handed.

Even if you DIDN'T redeem it, you had someone else do it.

Pretty stupid how you were taking \$90 BTC for it but offering ME \$102 BTC.

Then YAK said that you said it had \$105 BTC it only had \$104 BTC.

The whole situation narrows down to you, you took advantage of my reputation and thought i would do nothing about it.

Your not going to pay him back you never are, you just keep stalling like you always do.

And if you think i'm lying then go ahead it will only be worse when they come to your house when your off guard and they take your laptop.

They will search through everything and find it.

I have the proof on the video i recorded you.

You think i am your friend after you took my money?

Think again, i may was calling you "bro" and everything but that was only to catch you doing black-hat activity's because you weren't paying me my money back NOR were you loaning me the money.

Guys, Fire is innocent... probably.

Alright, the deal is that I once exchanged with Fire. Deal went smooth and all that. But then, he contacted me on Skype and was panicking, he said that someone was saying that he scammed for \$100 or so MP.

The message he had:

So I asked a few friends, and they were clueless. I mean, if the code was invalid, then it would have said something else, right?

I looked around and reached this page:

[http://www.scambook.com/report/view/246696/Moneypak-Complaint-246696-for-\\$200.00](http://www.scambook.com/report/view/246696/Moneypak-Complaint-246696-for-$200.00)

If you watch closely:

So the card has been refunded or something.

The person who supplied OP with the card might have called in.

I got the card from this kid here he was doing a exchange with me and it never worked then his friend threatened to card items to my house funny right but yeah he tried to scam me with a non working code.

The funny thing is the kid hasnt been on HF for 7 days so there's one reason he was only here to scam. He tried to scam me then tried to get his friend to swat me and he said he was in a drug cartel in mexico and that he lives right by the boarder. And that he also was gonna have his friend hire a hitman to kill me plus send carded items to my house.

This has turned into one big drama thread of He said, She said.

I'm not taking sides with either users, but through all those screenshots you provided OP, do any of them prove that you sent a working MoneyPak code to him? Also do you have a screen of a receipt from the Walgreens you purchased this from?

Also Crack, you said the code did not work, that is a classic thing for a scammer to say when scamming someone off a code, not saying you are, but I hear that excuse 99.9% of the time when someone scams Xbox Codes, MoneyPak Codes, or just codes in general.

The only valid proof I have seen on this deal was the 2 users had an agreement on which one party did not fulfill his side of the deal.

Unless you can provide un-deniable proof that he scammed you, this report will remain invalid. This is why these type of deals are sketchy and should be recorded, using the code to check it, then

sending the code to the buyer.

To both users, I recommend to stop argueing because it is useless and words do not prove anything, just post your proof and wait for a response.

Good luck with both users coming to an agreement to resolve this.

Young Donald - August 31, 2014, 2:32 pm

Report is legit sorry OP for your loss.

OP said he was hacked, then said code didn't work.

How did code not work if you were hacked?

Satan? - August 31, 2014, 3:26 pm

You really must be stupid ok first off you don't get it I got hacked after the deal suppose to take place and second of all I never scammed him I tried to show em via tv and he said because I couldn't login into one of my old paypals because it got hacked and it was limited. Then he blackscreened my computer via tv. And now then he threatend me and I tried to tell people what happens and the only people who believe me are the ones know who I am I never scammed you so just stop.

This report isnt even legit man. so stop with this fucking thread honestly I NEVER TOOK UR MONEY. You just are a greedy shuna of a bitch who wanted to try to scam me then you decided to make a fucking thread before me ur lucky I don't got my old computer or I would post all my proof pictures but I don't got it anymore.

And just so you know he says he contacted the Local police department but if he did don't you think I would be in jail by now over this I thought so I never took your money end of story.

RiotServices - August 31, 2014, 8:37 pm

OP follow these steps:

Try to use the code again > it will say 0.00 balance. Click here for details. > Fill out for email claimed > it will say the email claimed. > post email here. If he claimed you'll be able to see.

Satan? - August 31, 2014, 10:00 pm
