Thread: [Carbon Form Grabber?](#)

Kornox - June 16, 2014, 1:06 pm

Hello,

So i bought Carbon Form Grabber, but the user hasn't been active much. Last visit was 5 June I think. Apparently he got arrested is this true? Because i don't want to lose out on 75\$ BTC.

Thanks

I am going to take the assumption that this "Carbon Form Grabber" has something to do with fetching card information from slaves. With that assumption in hand, I can infer that he most likely got arrested because he was selling this type of system to people.

If my assumption is wrong, do correct me.

His arrest and his formgrabber are unrelated.

Code Dear carbonformgrabber customers Alex has been arrested for unknown reasons. You must now contact the developer directly, skype: tryigb I will be releasing new updated bins to customers. Kid got arrested, what a shame. If his grabber is used to grab CC info, then good on the feds.
