Design is top notch , though the colour scheme is really boring i think you shall reconsider your colour scheme

Autism - June 17, 2014, 11:08 am

Tooo basic colors, use more of them. Not bad.

Sunkist S0D4 - June 17, 2014, 11:10 am

Thanks guys, will make sure to use more of a color scheme in the finial version!

Nice design OP; and personally - I like the color scheme, it's nice and simple.

Yea because its hard to make responsive versions of a design that has a dull color scheme, has

four big ass boxess and an empty header.

I think you should put the login and signup boxes closer together.

Other than that this is looks pretty decent, I don't see anything wrong with the color scheme personally.

EDIT: The lifetime support icon looks like a soccer ball, I reccomend using an infinity symbol or something.
