So, I'm pretty bored of my games right now. Looking for Dead Space 1-2 and if possible the third game and TES: Oblivion with DLC. What I would like us to do is that I send my information first if I deem you trust worthy and you send yours afterwards. None of that bullshit "I'll go first then send my information after I'm done downloading" crap. We both go at the same time. If you can't accept that then I don't want us to trade and no "I used up my LT though you have to do the method to get another LT" bullshit too. I know my rep is fucked over some bullshit Ub3rs out there though I'm willing to show proof I have access to my two accounts. Also, I only use HF's PM system no Skype.

Games I am NOT looking for: COD: Ghosts, GTA V, or NBA 2K14 or any sports game in general.

Not sure anyone cares for DLC though I'll add them in a bit.

Bump. Don't really have anything in mind. Just want TES: Oblivion with the DLC though accepting other offers.
